Workgroup Consultation Response Proforma

CMP470: Introducing an Oversubscribed Technologies

Commitment Fee

Industry parties are invited to respond to this consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses to cusc.team@neso.energy by **5pm** on **30 April 2026**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration.

If you have any queries on the content of this consultation, please contact cusc.team@neso.energy

I wish my response to be:

(Please mark the relevant box)

☒ **Non-Confidential** (this will be shared with industry and the Panel for further consideration)

☐ **Confidential** (this will be disclosed to the Authority in full but, unless specified, will not be shared with the Panel or the industry for further consideration)

For reference the Applicable CUSC (Connection charging) Objectives are:

Means the Use of System Charging Objectives, as if references therein to the Use of System Charging Methodology were to the Connection Charging Methodology and in addition, the objective (where consistent with the other objectives) of facilitating competition in the carrying out of works for connection to the National Electricity Transmission System.

For reference the Applicable CUSC (non-charging) Objectives are:

- i. *The efficient discharge by the Licensee of the obligations imposed on it by the Act and by this licence*;*
- ii. *Facilitating effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the sale, distribution and purchase of electricity;*
- iii. *Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency **; and*
- iv. *Promoting efficiency in the implementation and administration of the CUSC arrangements.*

* See Electricity System Operator Licence

**The Electricity Regulation referred to in objective (iii) is Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the

Public

internal market for electricity (recast) as it has effect immediately before IP completion day as read with the modifications set out in the SI 2020/1006.

For reference, (for consultation questions 5) the Electricity Balancing Regulation (EBR) Article 3 Objectives and regulatory aspects are:

- a) fostering effective competition, non-discrimination and transparency in balancing markets;*
- b) enhancing efficiency of balancing as well as efficiency of national balancing markets;*
- c) integrating balancing markets and promoting the possibilities for exchanges of balancing services while contributing to operational security;*
- d) contributing to the efficient long-term operation and development of the electricity transmission system and electricity sector while facilitating the efficient and consistent functioning of day-ahead, intraday and balancing markets;*
- e) ensuring that the procurement of balancing services is fair, objective, transparent and market-based, avoids undue barriers to entry for new entrants, fosters the liquidity of balancing markets while preventing undue market distortions;*
- f) facilitating the participation of demand response including aggregation facilities and energy storage while ensuring they compete with other balancing services at a level playing field and, where necessary, act independently when serving a single demand facility;*
- g) facilitating the participation of renewable energy sources and supporting the achievement of any target specified in an enactment for the share of energy from renewable sources.*

Public

What is the EBR?

The Electricity Balancing Regulation (EBR) is a European Network Code introduced by the Third Energy Package European legislation in late 2017.

The EBR regulation lays down the rules for the integration of balancing markets in Europe, with the objectives of enhancing Europe's security of supply. The EBR aims to do this through harmonisation of electricity balancing rules and facilitating the exchange of balancing resources between European Transmission System Operators (TSOs). Article 18 of the EBR states that TSOs such as the NESO should have terms and conditions developed for balancing services, which are submitted and approved by Ofgem.

Please express your views in the right-hand side of the table below, including your rationale.

Standard Workgroup Consultation questions

1	Do you believe that the Original Proposal better facilitates the Applicable Objectives versus the current baseline?	Mark the Objectives which you believe each solution better facilitates than the current baseline:	
		Original	<input type="checkbox"/> i <input type="checkbox"/> ii <input type="checkbox"/> iii <input type="checkbox"/> iv <input checked="" type="checkbox"/> None
		No the OTCF proposal is anticompetitive, will lead to an increase cost to the consumer and is in direct conflict with the Applicable Objectives. The baseline should remain	
2	Do you support the proposed	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

	implementation approach?	Click or tap here to enter text.
3	Do you have any other comments?	Click or tap here to enter text.
4	Do you wish to raise a Workgroup Consultation Alternative Request for the Workgroup to consider?	<input type="checkbox"/> Yes (the request form can be found in the Workgroup Consultation Section of CMP470) <input checked="" type="checkbox"/> No
		Click or tap here to enter text.
5	Do you agree with the Workgroup's assessment that the modification does not impact the Electricity Balancing Regulation (EBR) Article 18 terms and conditions held within the Code?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		Click or tap here to enter text.

Specific Workgroup Consultation questions

6	Do you agree with the workgroup's understanding of the issues which oversubscription creates?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		There is limited evidence provided by the workgroup on the issue of oversubscription. Until all offers are issued and accepted and full

Public

		updated review of need is complete, we cannot be sure of oversubscription and then its future impacts.
7	Do you have evidence which may support the Workgroup in understanding what proportion of projects in the Gate 2 queue are unviable?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Anecdotal, a number of investors, funders and developers have confirmed that there are a lot of very poor quality projects which will not get delivered.
8	Do you have any comments on the Workgroups understanding of technical and economic viability of projects?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No There is limited information from the workgroup about the economic viability of projects. Just an assumption that oversubscription is bad for viability.
9	Do you agree with the proposed activation threshold of 50% oversubscription and deactivation threshold of 25% oversubscription?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No This is a further penalty for developers for things outside of their control.
10	Do you think the OTCF should apply based	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

Public

	on national or regional oversubscription?	
		We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
11	Do you agree with the proposed timing of the OTCF from implementation or Gate 2 contract signature (whichever is sooner) up to energisation?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
12	Do you agree with the proposal to apply the OTCF as a securities floor?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
13	Do you agree with the level of the OTCF, including minimum and maximum levels if changing over time?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		We do not support the OTCF – it is anticompetitive, will increase cost to the

Public

		consumer and is in direct conflict with the applicable objectives.
14	Do you agree that the OTCF should be applied to projects which co-locate an oversubscribed technology with another technology?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
15	Do you agree that the OTCF should apply as well as the PCF?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
16	Do you agree that any OTCF funds relating to a customer which does not go on to energise should be returned to consumers via TNUoS?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
17		<input type="checkbox"/> Yes

Public

	Do you agree that NESO should have the option not to implement the OTCF if the activation threshold is breached?	<input type="checkbox"/> No We do not support the OTCF – it is anticompetitive, will increase cost to the consumer and is in direct conflict with the applicable objectives.
18	Do you agree with the proposed Alternative Request 1 solution?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Click or tap here to enter text.
19	Do you agree with the proposed Alternative Request 2 solution?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Click or tap here to enter text.
