

Grid Code: Code Administrator Consultation Response Proforma

GC0105: System Incident Report

Industry parties are invited to respond to this Code Administrator Consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses by **5:00pm** on **11 December 2019** to Grid.Code@nationalgrideso.com. Please note that any responses received after the deadline or sent to a different email address may not be included within the Final Modification Report to the Authority.

Any queries on the content of the consultation should be sent to Grid.Code@nationalgrideso.com.

These responses will be included within the Draft Grid Code Modification Report to the Grid Code Review Panel and within the Final Grid Code Modification Report to the Authority.

Respondent:	Alastair Frew
Company Name:	Drax Generation Enterprise Ltd
Please express your views regarding the Code Administrator Consultation, including rationale. (Please include any issues, suggestions or queries)	<p><i>For reference, the Applicable Grid Code objectives are:</i></p> <ul style="list-style-type: none">(a) To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity;(b) Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);(c) Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;(d) To efficiently discharge the obligations imposed upon the licensee by this license and to comply with

	<p>the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and</p> <p>(e) To promote efficiency in the implementation and administration of the Grid Code arrangements.</p>

Code Administrator Consultation questions

Q	Question	Response
1	Do you believe that GC0105 better facilitates the Applicable Grid Code objectives? Please include your reasoning.	Yes as it allows monitoring and publication of data which aid judgement of the security of the system as required in objective (c). This data had previously been identified as being required and was being collected and published by the ESO annually until they decided as they were not mandated to produce such data they would not.
2	Do you support the proposed implementation approach?	Yes. The Original does appear to be more onerous than what was previously being produced and potentially is more detailed than is required. The WACM seems more realistic in some items whilst it appears to lacking in others, also the WACM is proposing to hide the outcome in the FON which does not appear acceptable as this document is uncontrolled. On balance the Original proposal seems best.
3	Do you have any other comments in relation to GC0105?	No
