

GC0139 Action Log

Action Number	Date Action Raised	Owner	Action	Comment	Due by	Status
3	06 May 2020	MT & PT	Schedule 11: Medium Power Station Data – Confirm whether NG requires detailed data at the application stage for all medium power stations irrespective of the voltage level of the connection to the distribution network.		WG 3	Open
5	06 May 2020	All WG Members	Review schedules 5 and 11 off line and confirm: a) If the enhanced data exchange is required/necessary, b) If you are happy with the amendments being proposed/if not what further amendments are required. c) Highlight any points that have not been discussed in previous Workgroups that need to be discussed at the next session.	Allow for reflection of the further discussion in WG2	WG3	Open
6b	01 July 2020	All WG Members PT	a) Review spreadsheet sent out by PT on the 12/05/20 and provide feedback prior to WG3 offline. b) Provide wording on the difficulties he faced in trying to produce this spreadsheet.	b) Completed on the 07/07/20	WG 3	Open Propose to close in WG3

7	06 May 2020	DNO Reps	Check if it is feasible to assimilate 5 National Grid models into their software via excel spreadsheet data exchange.	Update provided in WG 2: It is feasible, but this needs to be weighed up against the cost of facilitating new technologies, and how this could add value against a more manual approach. This a key output from the WG, therefore this action will probably close more towards the end of the WG.	Ongoing	Open
8a	06 May 2020	All WG Members	1) Read Open Network report – Proposal for Implementation of Electronic Exchange of Network Planning Data . Feedback your views on a) Whether you feel the high-level costs/timescales within the report are reasonable, along with the methodology used to calculate them. b) The WG can use them as part of a cost benefit analysis to move towards a CIM solution.	All WG members to send email confirmation prior to WG3 (Tuesday 4 th August cut-off) to confirm you are happy with the costs and timescales, raise concerns if not.	Prior to WG3	Open
8b	01 July 2020	IP	Send out details of the people who were involved in the Open Network Group working group, so that Workgroup members can contact them if they wish to do so.	Completed 07-07-20	Prior to WG 3	Propose to close in the WG3 meeting
8C	01 July 2020	LM	Feedback the difference between the indicative and actual costs & time scales, for the CIM work that LM has done for WPD.		WG 3	Open
11	06 May 2020	All WG Members	Think about how we justify moving to CIM or another form of electronic data exchange.		Ongoing	Open
14	01 July 2020	PT & MT	Frequency of Data Exchange: Confirm the exact data NG wants and when they want to receive it e.g. summer minimum and winter maximum data at different times of the year, rather than all in one go.		WG 3	Open
15	01 July 2020	MB/IP/PT	What is the cost of using CIM/not using CIM? MB to create a template and then send it to IP/PT for review, before sharing this with the rest of the WG so that it can be completed ahead of Workgroup 3.	Draft Template to be reviewed in WG3 and completed ahead of WG4. Draft attached in WG3 papers	WG 3	Open

16	01 July 2020	IP	Circulate link to the Energy Data Task Force report.	Completed 06/08/20 Included in the email along with the WG3 papers	Prior to WG 3	Propose to close in WG3
17	01 July 2020	IP	Document the requirements for the first draft of the Planning code legal text, to allow the ESO and the workgroup to adapt this initial draft.		WG 3	Open

Closed actions

Action Number	Date Action Raised	Owner	Action	Comment	Due by	Status
1	06 May 2020	MB	Legal Text - Confirm ESO views on whether they should try to amend/manipulate the existing text, or if they should create a new separate section for Network Operators.	Additional section should be added to the planning code.	WG 2	Closed in WG2
2	06 May 2020	PT	Try and provide a link/information to the European working group that is already looking at TSO-DNO data exchange.	PT sent an email to the WG on 27th May 27th. GV responded that this had already been covered off in another Grid Code change modification GC0106.	20 May 2020	Closed in WG2
4	06 May 2020	IP	Check if an expected connection date is included in the list of small (less than 1 MW) embedded power stations data.	If it is a small power station that is: <ul style="list-style-type: none"> - less than a megawatt then a connection date it is not needed. - Greater than a megawatt, then you will need to provide a forecast connection date in Schedule 11. 	20 May 2020	Closed in WG2
6a	06 May 2020	PT	Model scenarios to prove/disprove that it is not feasible to do this level of data exchange via spreadsheets.	PT emailed a sample spreadsheet to the WG on Tuesday 12th May 16:12.	WG 3	Closed in WG2
9	06 May 2020	All WG Members	Feedback views on whether:	Merged into action 5	WG 2	Closed in WG2

			a) The actual enhanced data exchange is required/necessary, b) You are happy with what is being proposed/or are any amendments needed, if so what are they.			
10	06 May 2020	National Grid	Propose a table for WK42	To deliver action 6a, PT has tried to produce a tale for WK 42. This was emailed to the WG on Tuesday 12 th May 2020 at 16:12.	WG 2	Closed in WG2
12	06 May 2020	All WG Members	Review all Workgroup 1 documents and circulate any feedback to the Workgroup.	Replaced by other actions.	20 May 2020	Closed in WG 2
13	06 May 2020	Code Admin	Arrange the second Workgroup for 2/6/20 1-4pm	This had to be cancelled and was re-arranged for the 1/07/20	13 May 2020	Closed in WG 2

Possible future actions:

- Consider getting someone with significant IT experience/involvement to join future Workgroup meetings.
- NG/DNO's – work out what resource will be required (for now and in the future) if they do not use CIM.
