**THE CONNECTION AND USE OF SYSTEM CODE
DISTRIBUTION IMPACT ASSESSMENT APPLICATION FORM**

Annex 10 – CMP328 Original and WACM2 Legal Text – New Exhibit Z (Distribution Impact Assessment Application Form)

Changes shown in red text

DISTRIBUTION IMPACT ASSESSMENT APPLICATION FORM

- 1 **The Company** shall submit a request for a **Distribution Impact Assessment** to the **User** (who owns and operates a **Distribution System**) with the following;
 - The **Scheme Briefing Note (SBN)** as documented in STCP 18-1 Appenedix B1 of the **STC** in respect of the particular application.
 - The **Data Registration Code (DRC)** as documented in **Grid Code** in respect of the particular application.
 - Information in respect of the **Distribution System/NETS** interface at the **GSP**, specifically;
 - Single line diagram showing the **NETS** between the proposed **Connection Site** (stated in the **Connection Application**) and the **GSP**
 - Details of the proposed running arrangements (if different from current arranegments).
 - Transformer impedance data of the **GSP**
 - Current Fault Level data at the **GSP**
 - Estimated Fault Level data at the **GSP** once any **Construction Works** are completed.
 - Any other data as may reasonably be required to undertake the **Distribution Impact Assessment**.
