

Code Administrator Consultation Response Proforma**GC0158: Reversing unimplemented aspects of GC0068**

Industry parties are invited to respond to this consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses to grid.code@nationalgrideso.com by **5pm on 03 October 2022**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration.

If you have any queries on the content of this consultation, please contact Milly Lewis milly.lewis@nationalgrideso.com or grid.code@nationalgrideso.com.

Respondent details	Please enter your details
Respondent name:	Stephen Baker
Company name:	National Grid ESO
Email address:	Stephen.Baker@nationalgrideso.com
Phone number:	07929724347

I wish my response to be:

(Please mark the relevant box)

☒ Non-Confidential☐ Confidential

Note: A confidential response will be disclosed to the Authority in full but, unless agreed otherwise, will not be shared with the Panel or the industry and may therefore not influence the debate to the same extent as a non-confidential response.

For reference the Applicable Grid Code Objectives are:

- To permit the development, maintenance and operation of an efficient, coordinated and economical system for the transmission of electricity*
- Facilitating effective competition in the generation and supply of electricity (and without limiting the foregoing, to facilitate the national electricity transmission system being made available to persons authorised to supply or generate electricity on terms which neither prevent nor restrict competition in the supply or generation of electricity);*
- Subject to sub-paragraphs (i) and (ii), to promote the security and efficiency of the electricity generation, transmission and distribution systems in the national electricity transmission system operator area taken as a whole;*
- To efficiently discharge the obligations imposed upon the licensee by this license and to comply with the Electricity Regulation and any relevant legally binding decisions of the European Commission and/or the Agency; and*
- To promote efficiency in the implementation and administration of the Grid Code arrangements*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions								
1	Do you believe that GC0158 Original Proposal better facilitates the Applicable Objectives?	<p>Mark the Objectives which you believe the Original Solution better facilitates:</p> <table border="1"> <tr> <td>Original</td> <td><input type="checkbox"/>A</td> <td><input type="checkbox"/>B</td> <td><input type="checkbox"/>C</td> <td><input type="checkbox"/>D</td> <td><input checked="" type="checkbox"/>E</td> </tr> </table> <p>Reversing these unimplemented historic changes promotes efficiency in the implementation and administration of the Grid Code arrangements and allows for a cleaner starting point for any future work with handling Dynamic Data.</p>	Original	<input type="checkbox"/> A	<input type="checkbox"/> B	<input type="checkbox"/> C	<input type="checkbox"/> D	<input checked="" type="checkbox"/> E
Original	<input type="checkbox"/> A	<input type="checkbox"/> B	<input type="checkbox"/> C	<input type="checkbox"/> D	<input checked="" type="checkbox"/> E			
2	Do you support the proposed implementation approach?	<p><input checked="" type="checkbox"/>Yes <input type="checkbox"/>No</p> <p>This proposal is to fully reverse the unimplemented changes to the Grid Code which were part of the approved modification GC0068 '<i>Grid Code New and Revised Unit Data and Instructions</i>' associated with Electricity Balancing System go-live, including Dynamic Stable Import and Export Limits. The modification is a housekeeping exercise and replaces the withdrawn modification proposal GC0126 '<i>Implementing Profiled Stable Import and Export Limits and Reversing Unimplemented Aspects of GC0068</i>'.</p>						
3	Do you have any other comments?	The proposal makes no impact to the live Grid Code, but as a tidying-up exercise will provide a cleaner starting point for any future work handling dynamic data.
