3	Do you have any other comments?	<p>WACM 3 & 4 This WACM will creative inefficiency with connections potentially being removed and then customers reapplying. Credible applications risk losing their connection as a 3-month window to ensure land rights with the acceptable level of evidence being unrealistic. The TO & ESO are obliged to operate the network efficiently and economically this goes against the CUSC objectives, creating more unnecessary workload.</p> <p>WACM 5 & 6 This WACM creates unnecessary and additional workload for the ESO.</p>
