

Grid Code Review Alternate Panel Member Biography

**Name:**

Richard Woodward

Role:

Onshore Transmission Owner -
Alternate Panel Member

Biography:

Richard has worked in the energy sector for over fifteen years, in a variety of commercial or regulatory roles for electricity suppliers, renewable generation developers, NGESO and since 2017 - National Grid Electricity Transmission (NGET).

During his time with ESO, Richard was one of the leads for the implementation of EU Network Codes obligations into the Grid Code. He also initiated the work to clarify Grid Code technical requirements for storage technologies under GC0096.

Richard will be the alternate for the Onshore Transmission Owners (TOs), alongside his position as STC Panel Member for NGET. He was previously the primary Onshore TO Panel Member between 2019-2021.
