

CM079 – Consideration of STC/STCP changes in relation to CMP330/374

Workgroup 6

12 July 2023

Agenda

Elana Byrne – National Grid ESO Code Administrator

Agenda

#	Topics to be discussed	Lead
1.	Welcome, agenda and Workgroup responsibilities	Chair
2.	Workgroup meeting objectives	Chair
3.	Brief update on actions from Workgroup 6	Workgroup
4.	Brief overview of Terms of Reference and Timeline	Chair
5.	Address any critical updates of draft legal text (time permitting)	Workgroup & Proposer
6.	Review Workgroup Consultation questions and finalise Workgroup Consultation	Chair & Proposer
7.	Terms of Reference review	Proposer
8.	Revisit Timeline	Chair
9.	AOB & Next Steps	Chair

Workgroup Responsibilities

Elana Byrne – National Grid ESO Code Administrator

Workgroup Members for CM079

Voting members	Role
Richard Woodward	Proposer
Stephen Baker	ESO rep
Barney Cowin	Workgroup member
Joe Jordan	Workgroup member
Michelle McDonald (alternative: Harriet Eckweiler)	Workgroup member
Non-Voting members	Role
Neil Dewar	Observer
Neil Bennett	Observer

Communication channels

Please note that all official email communications regarding the modification (including sharing documents) should be sent to/or cc: STCTeam@nationalgrideso.com

Expectations of a Workgroup Member

Contribute to the discussion

Be respectful of each other's opinions

Language and Conduct to be consistent with the values of equality and diversity

Do not share commercially sensitive information

Be prepared - Review Papers and Reports ahead of meetings

Complete actions in a timely manner

Keep to agreed scope

Email communications to/cc'ing the .box email

Your Roles

Help refine/develop the solution(s)

Bring forward alternatives as early as possible

Vote on whether or not to proceed with requests for Alternatives

Vote on whether the solution(s) better facilitate the Code Objectives

Workgroup Meeting Objectives

Elana Byrne – National Grid ESO Code Administrator

CM079 – Workgroup 6 Objectives

- Review Workgroup Consultation questions and finalise Workgroup Consultation
- Terms of Reference review

Plus:

- Updates on actions from WG5
- Addressing any critical draft legal text updates (time permitting)

Update on actions from Workgroup 5

Elana Byrne – National Grid ESO Code Administrator

Update on actions from Workgroup 5

Action	Update
ESO to identify whether anything further needs to feature in the legal text for TO support	Ongoing as legal text is reviewed
ESO to confirm position re: application fee and changing ESO charging statements accordingly	
Proposer to share updated Solution map for WG6 if necessary	Complete – Proposer reviewing for version to include in consultation document
Proposer to think about the Intervention Criteria regarding STCP creation and changes to STCP (18.1)	
ESO to refer to their internal legal team to see if there is anything disputable in CUSC & Adoption Agreement Principles	
The ESO to consider what supports is needed from TOs regarding CUSC 7.4 process (and if a timeframe needs applying to the dispute process)	
Proposer to share updated legal text with Chair	Ongoing as legal checks are applied
Draft legal text to be considered and reviewed by relevant parties and feedback shared with the Chair to collate	Ongoing
Potential housekeeping change to be checked for NGET reference	Raised to the implementation team – can be made as part of this modification or logged for a separate housekeeping mod

Terms of Reference

Elana Byrne— National Grid ESO Code Administrator

CM079 – Consideration of STC/STCP changes in relation to CMP330/374

Workgroup Term of Reference	Location in Workgroup Report (to be completed at Workgroup Report stage)
a) Quantitative assessment of the STC/STCP's, which will need to change to facilitate implementation of CMP330/CMP374/CMP414	
b) Impact assessment against STC Applicable Objectives of ToR (a)	
c) Ensure the appropriate Industry experts or stakeholders are engaged in the Workgroup to ensure that all potentially affected stakeholders have the opportunity to be represented in the Workgroup	
d) The cross Code impacts this Modification has on CMP330/CMP374/CMP414 solution and other areas of the CUSC	
e) Consider the regulatory consequences of implementing CMP330/CMP374/CMP414 and CM079, in particular related transmission licence provisions and price control processes - ideally summarising potential areas for future conversations with the Authority if required	

CM079 – Consideration of STC/STCP changes in relation to CMP330/374

The Proposer's Terms of Reference summary:

a) Quantitative assessment of the STC/STCP's, which will need to change to facilitate implementation of CMP330/CMP374/CMP414

Solution map provided - expected STCP changes identified pre-emptively too

b) Impact assessment against STC Applicable Objectives of ToR (a)

Done

c) Ensure the appropriate Industry experts or stakeholders are engaged in the Workgroup to ensure that all potentially affected stakeholders have the opportunity to be represented in the Workgroup

Done (to the best of my knowledge)

d) The cross Code impacts this Modification has on CMP330/CMP374/CMP414 solution and other areas of the CUSC

Possible issues re. ESO/TO roles around Adoption Agreement principle disputes - could be problematic if CUSC mod is approved. STC mod will seek to clarify this. High burden for robust Adoption Agreement Ts & Cs, but not an STC issue. Otherwise nothing else identified

e) Consider the regulatory consequences of implementing CMP330/CMP374/CMP414 and CM079, in particular related transmission licence provisions and price control processes ideally summarising potential areas for future conversations with the Authority if required.

More write-up needed by Onshore TOs, but high level issues identified for further conversations with Ofgem

Timeline Review

Elana Byrne – National Grid ESO Code Administrator

Timeline for CM079 – as of 15 June 2023

(send to June 2023 Panel as update from 2022 timeline)

Milestone	Date	Milestone	Date
Workgroup Meeting 1	17 January 2022	Code Administrator Consultation	4 October – 25 October
Workgroup Meeting 2	11 February 2022	Draft Final Modification Report (DFMR) issued to Panel	21 November 2023
Workgroup Meeting 3	11 March 2022	Panel undertake DFMR recommendation vote	29 November 2023
Workgroup Meeting 4 - Revisit Code mapping and establish requirements	2 June 2023	Final Modification Report issued to Panel to check votes recorded correctly (5 working days)	7 December 2023
Workgroup Meeting 5 - Develop Solution, Draft Legal Text and consider potential Workgroup Consultation questions	28 June 2023	Final Modification Report issued to Ofgem	10 December 2023
Workgroup 6 – Review Workgroup Consultation questions and finalise Workgroup Consultation, ToR Review	12 July 2023	Implementation Date	TBC
Workgroup Consultation	19 July – 08 August 2023		
Workgroup Meeting 7 - Review Workgroup Consultation responses, , consider new points raised, refine solution, review legal text and discuss any potential alternatives	14 August 2023		
Workgroup Meeting 8 - Finalise Workgroup Report and hold Workgroup Vote	08 September 2023		
Workgroup report issued to Panel (5 working days)	19 September 2023		
Workgroup report presented to Panel	27 September 2023		

Review any critical updates to draft legal text

Workgroup & Richard Woodward - NGET

AOB and Next Steps

Elana Byrne – National Grid ESO Code Administrator

Appendix

Proposer's Solution Map

Richard Woodward – NGET

CM079 Solution Map – 11 July 2023

TO/ESO interaction	CMP374/414 Solution/Consequence	STC Changes	Change RAG	Wider considerations
Customer / ESO application stage	Contestability signalled as part of the application	Schedule 5+6 (STCP18-1 to follow?)		STC would need to define the concept of contestability.
	ATOCO process may need to be adjusted for where potential works extend or influence beyond one TO area			Intervention process for multiple relevant TOs
	Fixed Application Fee charges may need to change			
Intervention Process	Pre-emptive Intervention can be initiated – how; when?	Section D Part Two – new section		
	Process for User-led disputes re. intervention	Section H		
Adoption Agreement negotiated	Process for User-led dispute + role of ESO TBC	Section H	TBC	ESO ACTION
Works Delivery (subject to agreed Adoption Agreement)	Process for failure (above and beyond AA terms)			Matters for AA + licence + price control
Definitions	Create new definitions to facilitate the changes needed	Section J + plus impacted STCPs and their associated definitions		

Any Questions?
