BM Cost (Indicative)
AS Cost (Estimate)

Commentary

A predominantly short market. Some Trades were required for Margin during the early hours at the start of the day. Trades and BM Action supported overnight Voltage Control in the Wales area, North East of England, Midlands and the South of England. Trades managed thermal export constraints along the South Coast of England throughout the day, and thermal import constraints in the South East of England. BM Action assisted with thermal import constraints in the South East of England, and power flows across the North and South of England, during the morning. BM Action was required for thermal export constraints in Scotland.
