

Date: Tuesday 21 Jul 2020

BSUoS Charge Estimate: £2.11/MWh  
Total Outturn: £2.01m

# Daily Balancing Costs

BM Cost (Indicative)  
AS Cost (Estimate)

## Commentary

The market was mostly short throughout the day. Interconnector Trades between 6am and 8am alleviated thermal import constraints in the South East. BM Action in addition assisted with this over the morning and midday periods. BM Action required all day for localised thermal export constraints in the North of Scotland. Overnight Voltage Control required a few Trades and BM Actions to support in the South. Some Interconnector Trading and BM Action for RoCoF overnight.
