

Date: Friday 23 Jul 2021
BSUoS Charge Estimate: £3.29/MWh
Total Outturn: £3.14m

Daily Balancing Costs

BM Cost (Indicative)
AS Cost (Estimate)

Commentary

The market became short from 8am and was short until 5pm. 488MW of Non-BM Fast Reserve was run over the morning peak, and another 488MW over midday. Some overnight Trades required for Voltage Control in the Midlands and South East of England. Interconnector Trades overnight for RoCoF. Trades throughout the day alleviated thermal export constraints in the South Coast of England, with BM Action also assisting.
