Commentary

The market was short overnight into the morning, becoming long from midday onwards. There was a brief short peak early evening. Interconnector Trades for Margin were required between 5am and 10am, over the early afternoon, and from 8pm onwards. Some overnight Trades and BM Actions for Voltage Control. Some Trades and BM Action overnight for RoCoF. BM Action required throughout the day to manage localised thermal export constraints in the Wales area, and from 5pm onwards in Scotland.
