

Date: **Tuesday 13 Sep 2022**

BSUoS Charge Estimate: £3.85/MWh

Total Outturn: £3.85m

Daily Balancing Costs

■ BM Cost (Indicative)
■ AS Cost (Estimate)

Commentary

The market was mostly long throughout the day with a short period in the late afternoon and trades were made for margin.

BM Actions managed thermal constraints in Scotland during the early morning. All overnight Voltage requirements were met by the market.
