### Commentary

A mostly short market over the morning to late afternoon. 483MW of STOR was run over the evening Darkness Peak. Interconnector Trades were required for Margin from 8am until 4pm. Overnight Voltage Control supported by Trades in the South and South east of England, and BM Action in the Midlands and Wales areas. Trades alleviated thermal import constraints in the South East of England between 7am and 9am, and the North of Scotland from mid afternoon onwards. BM Action managed thermal export constraints in Scotland throughout the day.
