Commentary

A mostly long market with some intermittent short peaks around midday, mid afternoon to early evening, and from late evening into the night. Interconnector Trades required for Downward Regulation overnight at the start of the day to 6am.

Trades and BM Action overnight for Voltage Control in the Midlands, South East of England, and Wales areas. Trades and BM Action overnight to midday for RoCoF. BM Action alleviated thermal export constraints in Scotland and the North of England overnight to midday. Some BM Action was required again for this in the late evening.
