For reference the Applicable CUSC (charging) Objectives are:

- a. *That compliance with the use of system charging methodology facilitates effective competition in the generation and supply of electricity and (so far as is consistent therewith) facilitates competition in the sale, distribution and purchase of electricity;*
- b. *That compliance with the use of system charging methodology results in charges which reflect, as far as is reasonably practicable, the costs (excluding any payments between transmission licensees which are made under and accordance with the STC) incurred by transmission licensees in their transmission businesses and which are compatible with standard licence condition C26 requirements of a connect and manage connection);*
- c. *That, so far as is consistent with sub-paragraphs (a) and (b), the use of system charging methodology, as far as is reasonably practicable, properly takes account of the developments in transmission licensees' transmission businesses;*
- d. *Compliance with the Electricity Regulation and any relevant legally binding decision of the European Commission and/or the Agency *; and*

- e. Promoting efficiency in the implementation and administration of the system charging methodology.

**The Electricity Regulation referred to in objective (d) is Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (recast) as it has effect immediately before IP completion day as read with the modifications set out in the SI 2020/1006.*

Please express your views in the right-hand side of the table below, including your rationale.

Standard Workgroup Consultation questions		
1	Do you believe that CMP392 Original Proposal better facilitates the Applicable Objectives?	<p>Mark the Objectives which you believe the Original solution better facilitates:</p> <p>Original <input checked="" type="checkbox"/>A <input checked="" type="checkbox"/>B <input type="checkbox"/>C <input checked="" type="checkbox"/>D <input checked="" type="checkbox"/>E</p> <p>We believe that under CMP391 the CUSC definition of “Charges for Physical Assets Required for Connection” there is a lack of transparency and legal certainty around the methodology along with the calculation.</p> <p>The CMP392 Original proposal seeks to publish the construction of the “Connection Exclusion” and its application in setting TNUoS (along with the methodology and the output of the calculation), thereby better facilitating the CUSC (charging) Objectives a, b, d and e. It is neutral for c.</p>
