### Specific Workgroup Consultation questions

5	<p>Do you agree with the elements of the proposed solution for CMP435? <i>Please note that the application of these elements may be different to <a href="#">CMP434</a>, therefore please answer the questions in respect to CMP435.</i></p> <p>Elements 2,4,6,7,12,15,17 and 18 are not part of the CMP435 Proposal and is only part of the <a href="#">CMP434</a> Proposal. Element 10 is proposed to be codified within the STC through modification <a href="#">CM095</a>.</p> <p>Please provide rationale for your answer and any suggestions for improvement to each element?</p>
---	---

<b>Element 1:</b> Proposed Authority approved methodologies and ESO guidance (see Page 8-10,29)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Click or tap here to enter text.	
<b>Element 3:</b> Clarifying which projects go through the Primary Process (See pages 10-11,29-31)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
Click or tap here to enter text.	
<b>Element 5:</b> Clarifying any Primary Process differences for customer groups (See pages 11-12,32)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

<b>Element 8:</b> Longstop Date for Gate 1 Agreements (See pages 12-13, 32-33)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<p>We would propose that the current User Progression Milestone M1 date (Secure Land Rights) as introduced by CMP376, be used as the date by which the User has to demonstrate compliance with the Gate 2 criteria. For existing Users this is a much more reasonable and proportionate change rather than imposing an arbitrary three year period between Gate 1 offer acceptance and Gate 2 offer acceptance (which in practice means just over two years from when existing user contracts are converted to Gate 1 contracts to when they have to meet Gate 2). This is particularly the case for Users with relatively late Completion Dates which they do not wish to bring forward why should they be terminated and forced to reapply for Gate 1 at a later date? We do not see any objective rationale for this.</p>	
<b>Element 9:</b> Project Designation (See pages 14-15, 33-34)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
<p>We welcome the proposal for a Project Designation that allows projects deemed critical for the system to receive additional support to manage their pathway through the Gates.</p>	
<b>Element 11:</b> Setting out the criteria for demonstrating Gate 2 has been achieved and setting out the obligations imposed once Gate 2 has been achieved (See pages 16-21, 34-39)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<p>Haldane Energy broadly agrees with the criteria for demonstrating Gate 2 has been achieved. However, it is clear that some new technology types will have very different requirements that mean that a narrowly defined set of criteria will be difficult to meet. Therefore there needs to be flexibility and/or discretion as to what is actually required in terms of securing land for novel technologies.</p>	
<b>Element 13:</b> Gate 2 Criteria Evidence Assessment (See pages 22-23, 39-40)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

	<b>Element 16:</b> Introducing the proposed Connections Network Design Methodology (CNDM) (See pages 24-25, 41-42)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

	<b>Element 19:</b> Contractual changes (See pages 26-28, 43-46)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

6	Are there any elements of the proposed CMP435 solution - as per Q5 - which you believe are not appropriate to include when you consider how to most effectively implement TMO4+ to projects in the existing contracted background (as opposed to the process for new applicants via <a href="#">CMP434</a> )? If yes, please provide supporting justification.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	Click or tap here to enter text.	
7	In relation to Q6, are there any features which you believe are missing in the proposed CMP435 solution that would more effectively facilitate implementation of TMO4+ to the existing contracted background. If yes, please provide details and justification.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
8	Do you believe any groups of projects should be exempt from the scope of CMP435 or from some elements of the proposed solution? If so, please advise on which groups and elements and provide rationale to why.	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	Click or tap here to enter text.
