Special CUSC Panel Headline Report January 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

New Modification and Request for Urgency

CMP446 Increasing the lower threshold in England and Wales for Evaluation of Transmission Impact Assessment (TIA)

The current connections process can be improved to facilitate the timely connection of distribution projects that have minimal impact on the Transmission Network to help meet net zero and Clean Power 2030. CMP446 proposes to raises the lower threshold at which an Evaluation of Transmission Impact Assessment (TIA) must be undertaken.

The Panel unanimously agreed that CMP446 met the Authority’s Urgency criteria (a), and therefore recommended urgent treatment. Panel’s recommendation was sent on 17 January 2025 seeking an Authority decision by 5pm on 22 January 2025.

CMP446 documentation can be found [here](#)
