

Date: Wednesday 19 Feb 2025

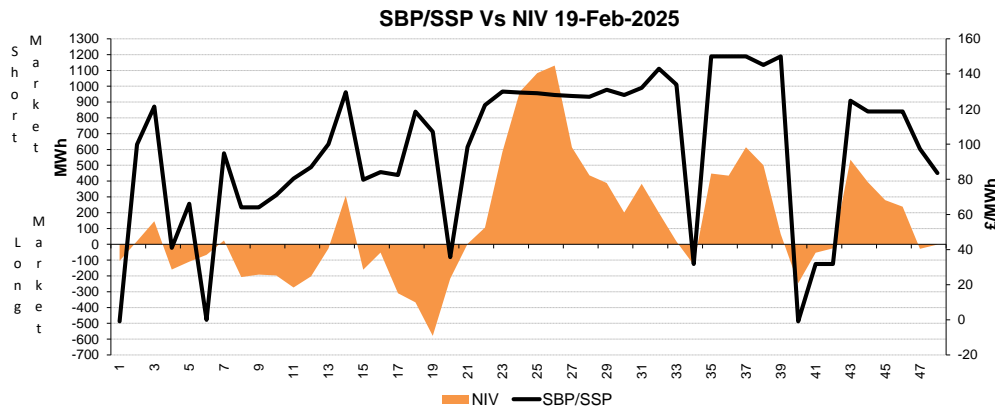

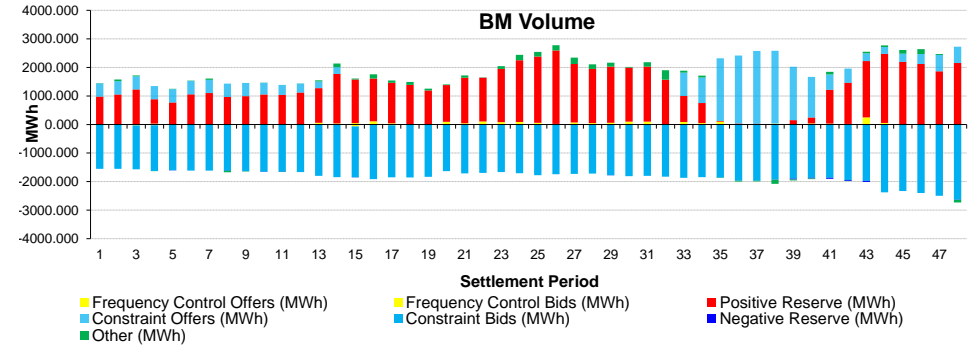

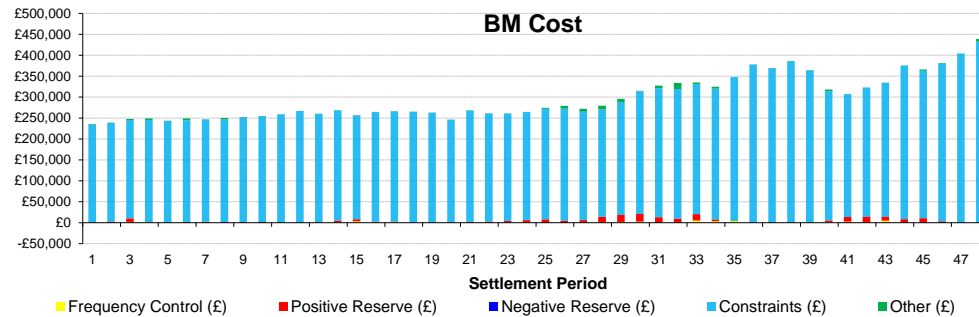

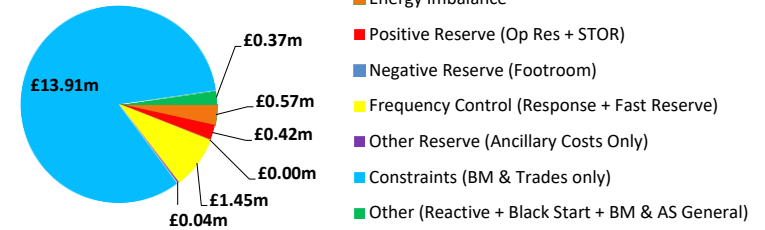

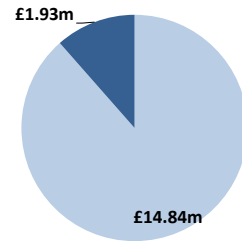

BSUoS Final Tariff: £12.17/MWh

Total Outturn: £16.77m

Daily Balancing Costs

BM Cost (Indicative)

AS Cost (Estimate)

Commentary

The market was predominantly long during the morning and then predominantly short during the second half of the day. No trades were taken for Margin or Downward Regulation. BM Actions helped to manage thermal constraints in Scotland throughout the day, while Trades and BM Actions helped to manage thermal constraints in the South of England during the evening. Trades and BM Actions also supported Voltage Control.
