- d) *Promoting efficiency in the implementation and administration of the CUSC arrangements.*

**The Electricity Regulation referred to in objective (c) is Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (recast) as it has effect immediately before IP completion day as read with the modifications set out in the SI 2020/1006.

Please express your views in the right-hand side of the table below, including your rationale.

Specific Workgroup Consultation questions

7	Do you believe that a codification of Scotland threshold is required for CMP446?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Codification of threshold(s) in Scotland would be preferable, but attempting to do this via CMP446 could delay its implementation.
8	Is it clear that the change in threshold is cumulative not incremental?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Click or tap here to enter text.
9	Do you believe 5MW is the correct threshold and if not why and to what threshold level should it be? (Providing rationale and justification for any alternative MW threshold)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No We agree with the 5MW threshold for CMP446, but regard boundary modelling as a better solution for the future.

10	Are there any other generic scenarios (over and above those shown in Figure 2 and Figure 3 (Annex 7) that need to be considered by the Workgroup, please provide details of them and explain why they are relevant?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No Click or tap here to enter text.
11	It is intended that where there is a fault level headroom that is less than 1kA or zero as stated by NGET at a GSP, then a project is required to go through the TIA irrespective of the change in threshold (from 1MW to 5MW) – do you agree with this and if not, why?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Click or tap here to enter text.
12	Do you agree that the Workgroup has identified the relevant risks if CMP446 is approved. If not, what further risks haven't been identified yet, and why are they relevant?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No Click or tap here to enter text.
13	Do you believe that as consequence of CMP446 there will be an increase in >5MW projects which is likely to have an impact on the Transmission Network? If so, what kind of projects could drive this?	<input type="checkbox"/> Yes <input type="checkbox"/> No This is speculation – no observation to make here.
14	Do you have any suggestions for any additional mitigation	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
