Headline Report 28 April 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Workgroup Reports

The following Workgroup Report was presented to the Panel:

CMP432 ‘Improve “Locational Onshore Security Factor” for TNUoS Wider Tariffs’

This modification seeks to improve the cost reflectivity of the “Locational Onshore Security Factor” used in calculating Wider TNUoS tariffs, in order for charges to better reflect the way Transmission Owners plan for a secure future network based on the Security and Quality of Supply Standard requirements.

The Panel agreed that the Terms of Reference have been met and agreed for CMP432 to proceed to Code Administrator Consultation. The Code Administrator Consultation will be published on 28 April 2025 and this will close on 06 May 2025.
