Grid Code Review Panel

Headline Report 22 May 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The meeting minutes from the Panel on 01 May 2025 were approved subject to minor comments from the Panel being incorporated and these have been uploaded to our [website](#).

New Modifications

No new Modification Proposals were presented to the Panel.

New / Pending Authority Decisions

Decisions since the last Panel

There have been no Authority decisions on Grid Code Modifications.

Awaiting Decision

Modification	FMR submitted	Expected Decision Date
<u>GC0117: Improving transparency and consistency of access arrangements across GB by the creation of a pan-GB commonality of Power Station requirements</u>	14 May 2024	30 May 2025

Ofgem publish a table that provides the expected decision date, or date they intend to publish an impact assessment or consultation, for code modifications/proposals that are with them for decision. This is published [here](#).

Prioritisation Stack

The latest prioritisation stack can be found [here](#).

In flight Modifications

GC0168: Submission of Electro Magnetic Transient (EMT) Models

Public

As Great Britain's (GB) power system moves towards a net zero carbon operation; the number of Inverter-Based Resources (IBR) is expected to increase, with the amount of synchronous generation in the grid to decline which will significantly change the characteristics of the GB network. These changes give rise to the potential control interactions between the devices across the network leading to risks of oscillations and inverter stability. This modification seeks to require certain Users to provide the ESO with EMT models to enable analyses such as system oscillation, inverter stability and Transient Over Voltage (ToV).

The Panel approved the new timeline as submitted within the Panel Papers.

GC0179: Removal of Balancing Code No.4 from the Grid Code

Balancing Code No.4 (BC4) covers Terre Processes. This modification seeks to remove this section from the Grid Code due to it being no longer required following the exit of Great Britain from the European Union. This modification will also remove references to TERRE from the Grid Code.

The Panel approved the timeline as submitted within the Panel Papers.

The next Modification Tracker will be published on 09 June 2025.

Workgroup Reports

No Workgroup Reports were presented to the Panel.

Draft Final Modification Reports

No Draft Final Modification Reports were presented to the Panel.

Key Activities ahead of next panel

Modification Proposal Deadline for April Panel: 11 June 2025

Papers Day: 18 June 2025
