BSUoS Final Tariff: £10.74/MWh

Total Outturn: £6.00m

# Daily Balancing Costs

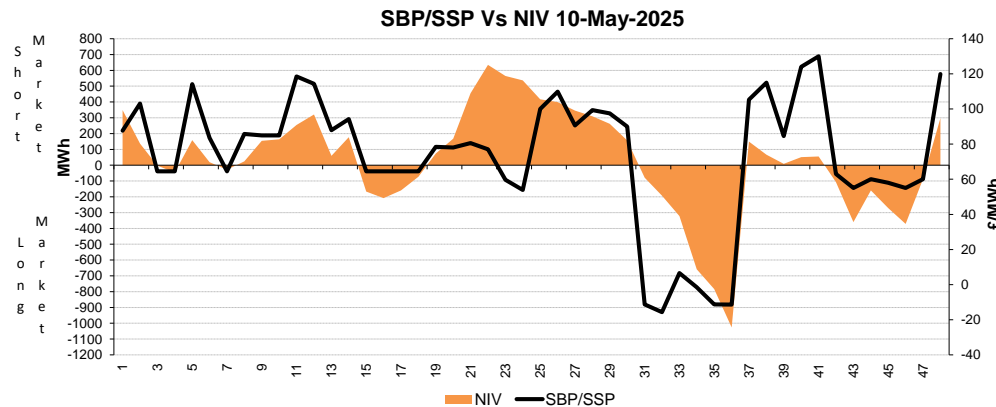

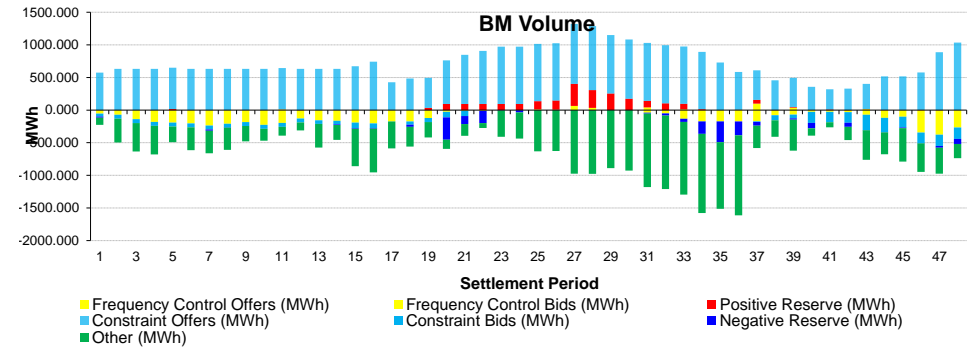

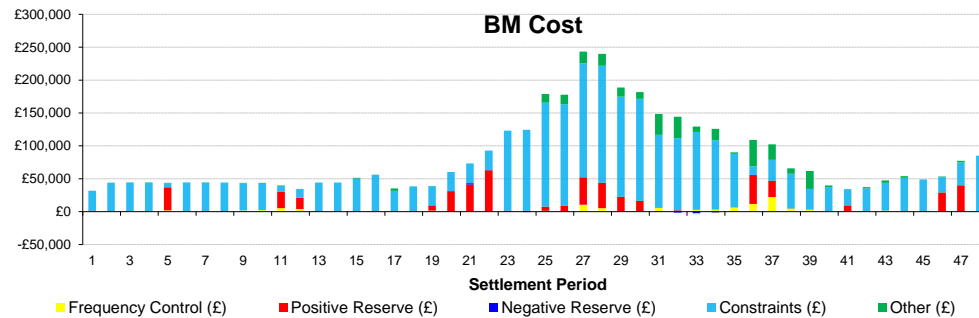

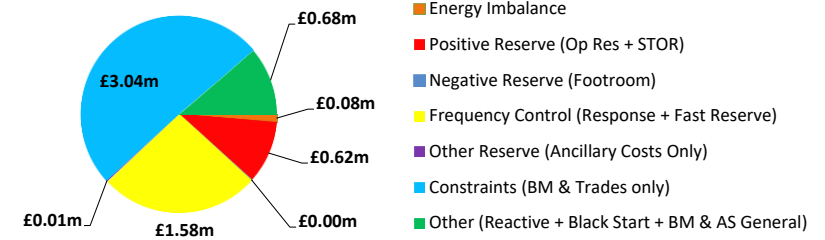

BM Cost (Indicative)

AS Cost (Estimate)

£1.98m

£4.02m

## Commentary

The market was alternating between long and short throughout the day. Trades were required for Downward Regulation. BM Actions were required to manage thermal constraints in England throughout the day and in Scotland from the mid-day onwards. Trades and BM Actions supported Voltage Control and further BM Actions supported System Inertia.
