NESO's Clean Power 2030 Implementation

Ongoing monitoring of networks reinforcement progress

Industry transformation of the electricity transmission outage plan approach

Industry transformation of the process to connect to the grid

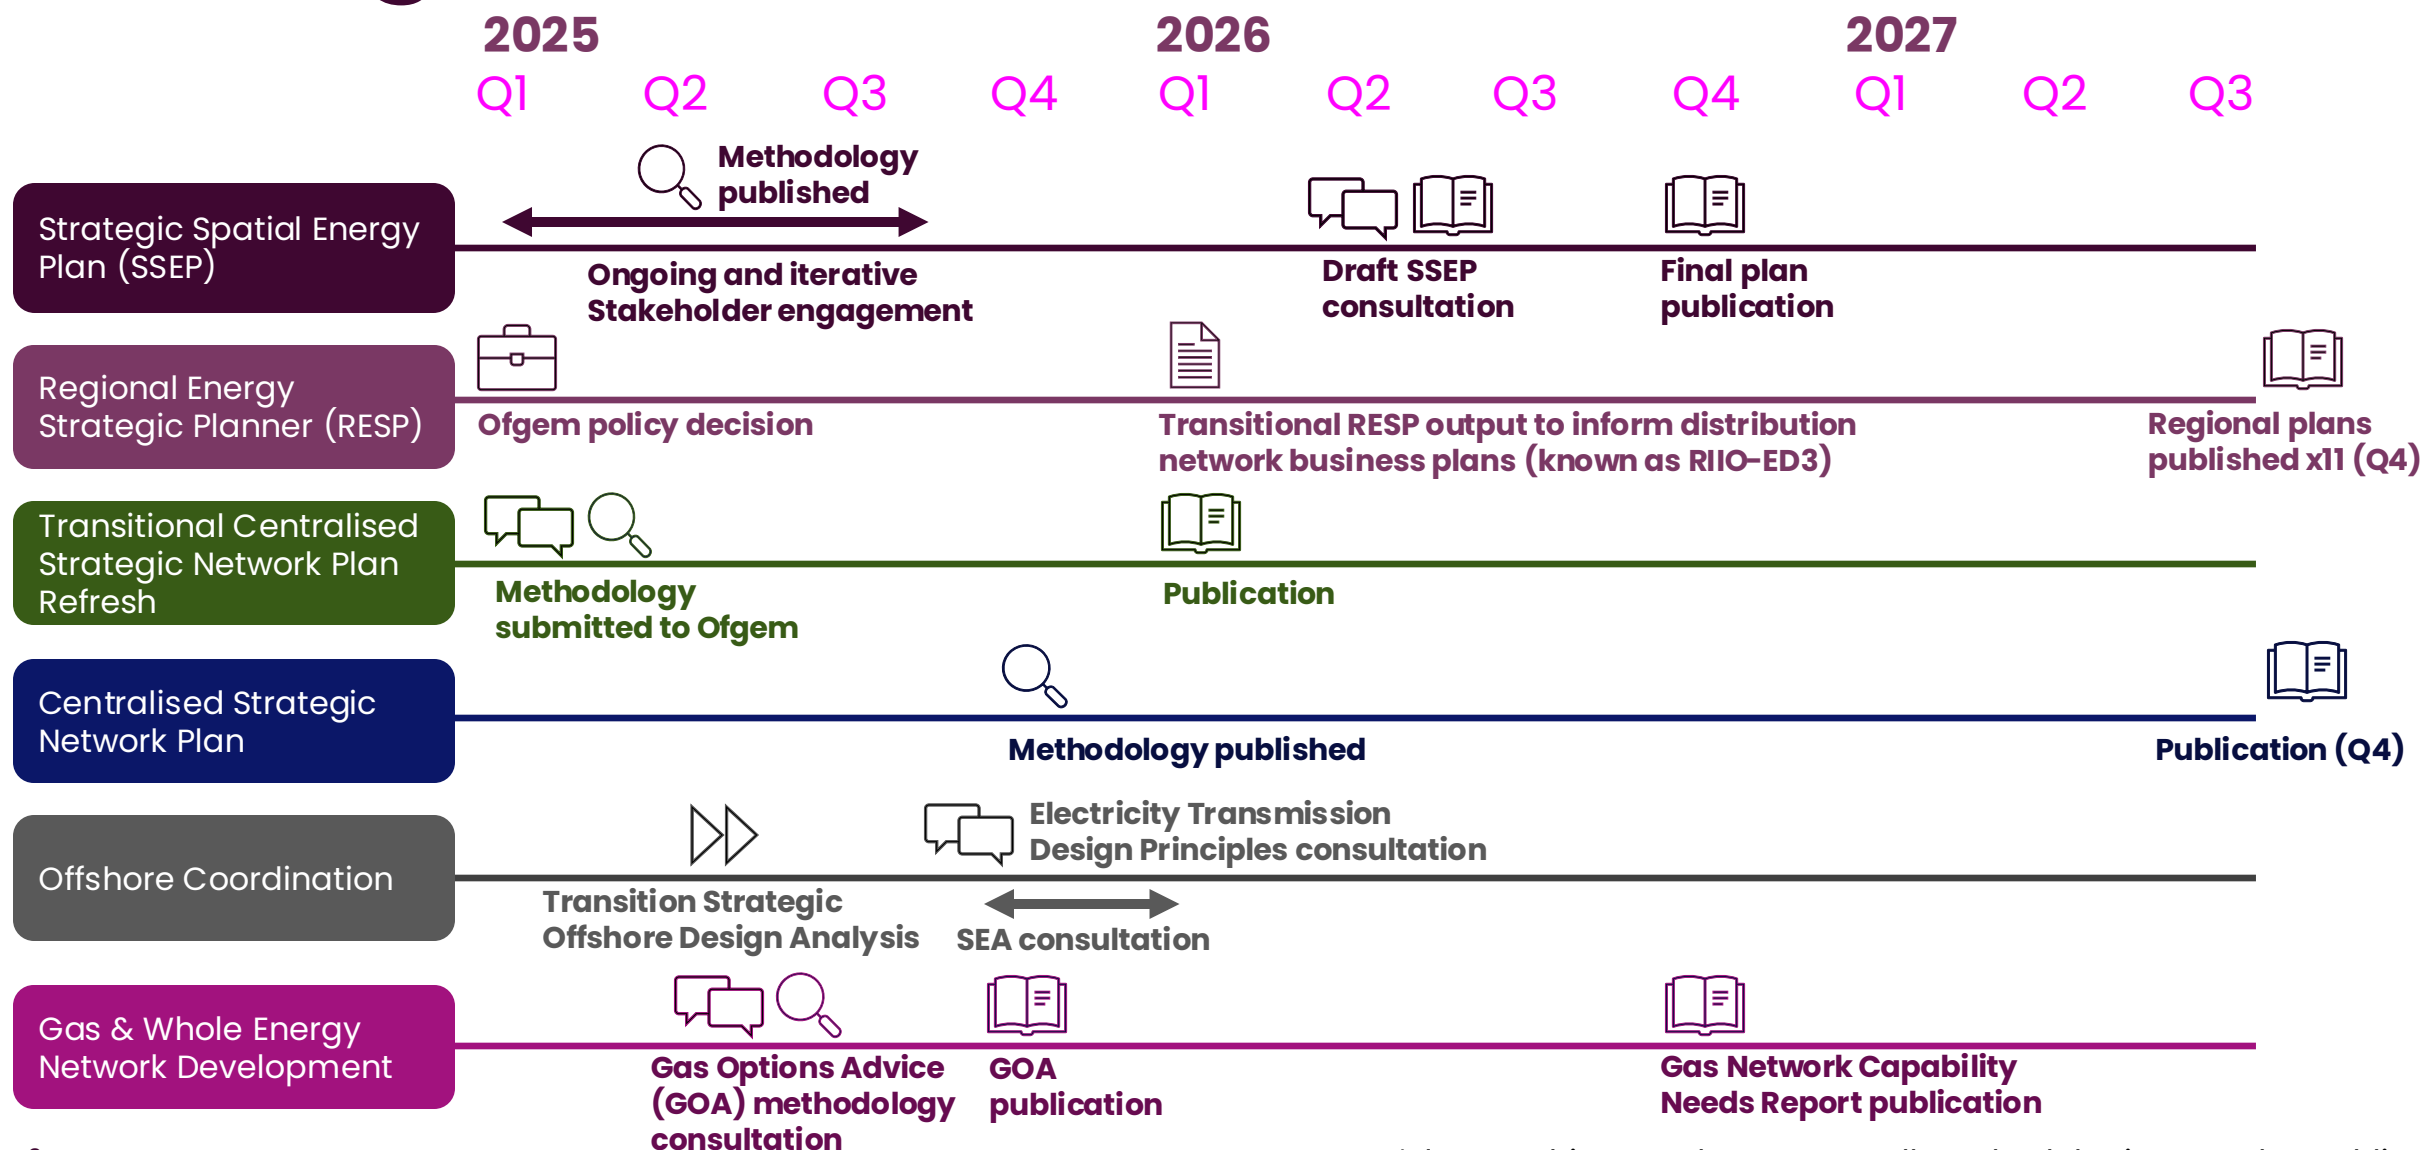

Ongoing work to ensure that the electricity system remains operable as it decarbonises

Ongoing work to ensure that the market reform initiatives align with CP30

Transformation of NESO's operational capabilities and digitalisation of the energy system

Engagement

SEP high level milestones*

Connections reform timeline

Key Milestone

Submission Window

Issuing Offer

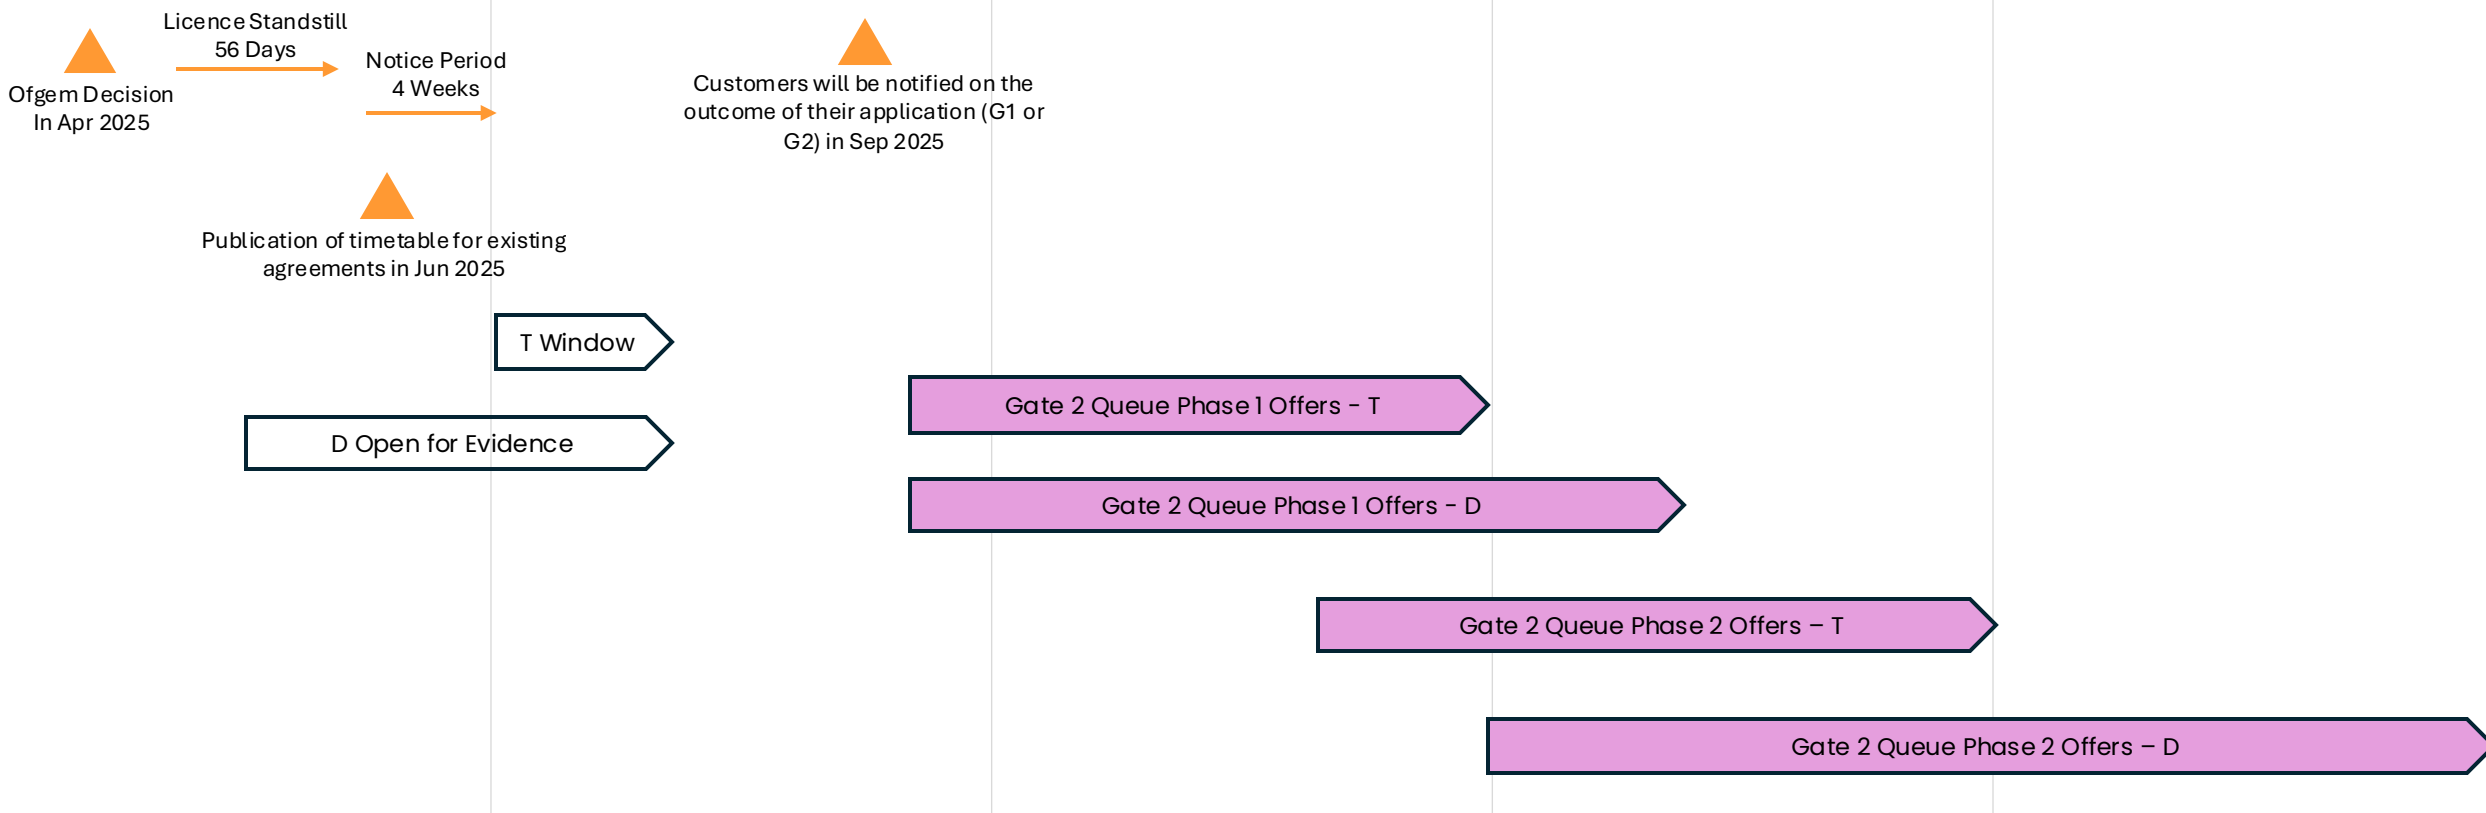

Q2 2025

Q3 2025

Q4 2025

Q1 2026

Q2 2026

Notes:

- DNO will start accepting evidence this month.
- T window is expected to open in July, the exact date will be confirmed with at least 4-week notice.
- NESO will continue sharing guidance documents and hosting webinars for customers in the lead up to the window, details of these will be shared via our website.
- Queue Phase 1 Offers will be prioritised

Whole Energy Market Strategy

Join our breakout to find out more about Whole Energy Markets Coordination

REMA

NESO has continued to advise government on its Review of Electricity Market Arrangements (REMA)

REMA is a Government-led programme to identify and assess potential reforms to existing market arrangements. REMA will evolve GB's market arrangements to be fit for purpose for clean power in 2030 and beyond.

NESO is a formal delivery partner in the programme.

Agenda

Time	Activity
9.00 – 9.45	Registration and Arrival
10.00 – 10.45	Welcome and Strategic updates
10.50–11.35	Breakout 1
11.45–12.30	Breakout 2
12.30–1.30	Lunch
1.30–2.15	Breakout 3
2.20–3.05	Breakout 4
3.05–3.20	Break
