Agenda

Grid Code Development Forum – 02 July 2025

Date: 02/07/2025 **Location:** MS Teams

Start: 09:00 **End:** 11:00

Agenda for Grid Code Development Forum (GCDF)

	Topics to be discussed	Owner
1.	Introductions and Review of Previous Actions	Claire Newton, NESO
2.	Presentation: New industry protocol for space weather	Helen Newman (NESO)/Garth Graham (SSE)
3.	Presentation: Code Administrator Update	Lizzie Timmins, Grid Code Administrator
4.	Presentation: Power Park Module (PPM) Reactive Power Provision Below Rated MW Output To present a potential change to the PPM reactive power requirements to harness un-utilised capability. Would like GCDF members to highlight potential technical difficulties with the proposed changes.	John Fradley, NESO
5.	Presentation: GC0166 Implementation preparation: Trial/proof of concept to collect real data and test the NESO optimiser GC0166 seeks to introduce new parameters to allow better use of Electricity Storage Modules within the Balancing Mechanism. Ahead of operational implementation NESO will invite relevant BM participants who meet the criteria to engage in a trial/proof of concept to collect real data and test the NESO optimiser.	Philippa Banks/Steve Baker, NESO
6.	Presentation: Standardisation of Power Flow Metering Polarity when Sending Data to NESO The idea on incorporating a unified power flow metering polarity standard in the Grid Code for data sent to NESO was previously presented at GCDF and received comments and suggestions from Industry stakeholders. The presentation will provide further evidence and clarification.	Pritesh Patel/Hao Guo, NESO
7.	Presentation: Guidance Notes for Co-location of Different Technologies – Issue 3 A brief explanation to stakeholders on revisions.	Tanmay Kadam, NESO

Public

8. **Presentation: Recent Electronic Dispatch Logging (EDL) / Electronic Data Transfer (EDT) Outage**

A brief update to stakeholders.

Tony Johnson/Jill Wells,
NESO

9. **AOB and Meeting Close**
