Code Administrator Meeting

Summary

Workgroup Meeting 5: CMP447 Removal of designated strategic works from cancellation charges/securitisation

Date:

Contact Details

Chair: Sarah Williams, Sarah.Williams@neso.energy

Proposer: Harvey Takhar, Harvey.Takhar@neso.energy

Key areas of discussion

The Chair advised the purpose of the meeting was to review outstanding actions and review and finalise the Workgroup Consultation document ready to send out to industry.

Action updates

Actions 14, 15, 16, 17, 18 and 19 (Actions closed)

The Chair provided updates on all outstanding actions and Workgroup members agreed they can be closed.

Workgroup Consultation Review

Workgroup members reviewed the Workgroup Consultation live during the meeting.

Workgroup members discussed the application of scaling factors (.5 and .33) for cancellation charges, with ongoing ambiguity about the correct interpretation in the CUSC.

The Proposer took an action to review and clarify the application and wording of the global asset reuse factor in the CUSC and feed back to the Workgroup.

The Workgroup discussed the consultation period, with several members supporting a shorter response window if feasible, and the possibility of reducing the number of post-consultation workgroup meetings. The Chair took an action to investigate whether this will be possible.

Next Steps

Public

The Chair noted that the Workgroup Consultation document would be circulated post-meeting for final review ahead of being issued to industry on 21 July 2025.

Actions

Action Number	Workgroup	Owner	Action	Due by	Status
20	WG5	HT/PM	Review and clarify the application and wording of the global asset reuse factor in the CUSC and feed back to the Workgroup.	WG6	New
