Closed Actions from last Panel Meeting:

Action No.	Status	Action	Date raised	Owner	Due	Comments and Updates
469	Open	Provide update on GC0178 in relation to Iberian Power Outage and whether this modification should be higher priority	26/06/2025	CN	July 2025	AJ has reviewed the Red Electrica Report and provided comments internally. GB are not in the same situation with Voltage Control so NESO don't believe GC0178 needs an increase in priority. If GC0178 was given a higher priority, it would be unlikely to be able to move any faster as the first stage is to commission analysis and a CBA.
