# Code Administrator Meeting

## Summary

### Workgroup Meeting 9: CMP423 Generation Weighted Reference Node

---

**Date:** 03/09/2025

---

#### Contact Details

Chair: Claire Gault, [claire.gault@neso.energy](mailto:claire.gault@neso.energy)

Proposer: John Tindal, [John.Tindal@sse.com](mailto:John.Tindal@sse.com)

---

### Key areas of discussion

#### Finalise Workgroup Report

The Workgroup reviewed the Workgroup Report noting minor edits to be added ahead of submission to Panel.

The Proposer and NESO to agreed to review the annexes to determine if they can be reduced without removing any content and to review all the annex reference placements are appropriate in the Workgroup Report

#### Agree Legal Text

The Workgroup agreed the Legal Text for CMP423.

#### Agree Terms of Reference Met

The Workgroup agreed that the Terms of Reference for CMP423 have been met.

#### Workgroup Vote

The Workgroup vote was completed, with 7 of the 9 eligible voting Workgroup members in attendance supporting the original proposal for CMP423 over the current CUSC baseline.

#### Actions Update

The Chair led a review of the action log, closing action 27 and proposing closure of actions 26, 28 and 29 on the circulation of the finalised Workgroup Report incorporating minor edits discussed today.

Public

## Next Steps

The Workgroup Report and Legal Text will be submitted to the Grid Code Review Panel for consideration on 15 September 2025.

## Actions

Action Number	WG Raised	Owner	Action	Comment	Due By	Status
26	WG8	NC	Add a graph for 10% conventional carbon in the relevant section of the Workgroup report and ensure all associated data and analysis are updated accordingly.	To be closed once final edits are made to the Workgroup Report.		Open
27	WG8	NC	Review and clarify the worked examples in the legal text, especially regarding the use of fixed versus distributed reference nodes, and ensure explanatory text is clear for non-technical readers.	The legal text completed and agreed by the Workgroup		Closed
28	WG8	NC	Check and confirm whether the modification will have any material impact on local charges and update the report accordingly.	To be closed when once final edits are made to the Workgroup Report.		Open
29	WG8	CG	Update the Workgroup Report with all discussed changes send to the Proposer for review, and then circulate to the Workgroup for final review before the next meeting	To be closed after incorporating all changes and circulation to Workgroup.		Open
