Rules

- This is your session to participate. Dig in!
- Use the chat function to ask questions.
- Use the mute button when not speaking.
- Avoid interrupting when others are speaking.

63

Your Participation Role

1. **Throughout the session** Speak up, think big, raise concerns, be patient, don't use acronyms or inside language.
2. **During activities** Ask clarifying questions before we begin, good energy in - good results out.
3. **Remember** This session is part of the (good) work. We've never done this together before. Seek to understand before being understood.

Mural Tips

NAVIGATION

Moving the board
Hold the space bar down then click and drag to move the position of the entire MURAL on your screen

Zooming in & out
Scroll the wheel on your mouse or pinch on your trackpad to zoom in/out. When changing devices you may need to check **Zoom Settings** in the bottom right.

The minimap
Track your view of the MURAL and zoom percentage on the minimap on the bottom right corner of your screen.

ORGANIZING

Select Objects
Click an object to select it; hold shift while clicking objects to select more than one at once

Move Objects
After selecting the objects you wish to move, simply drag them to the desired location on the MURAL

CONTRIBUTING

Sticky Notes
Add sticky notes by right-clicking, then selecting **Add Sticky Note** or by double clicking on an empty space or the background.

2 Update on Releases

Latest status

4 min

29th October - Release 4.5

1. New API - Create MPAN and consent (linked to ABSVD) - allows the Unit Manager to create bulk MPANs along with consent against their Asset details.
2. Optimise external APIs - improvements on the following:
   a. For Create Asset - 1000 Assets per call
   b. Create MPAN PAIR & MPAN Consent - < 10000 MPAN PAIRs per call
   c. For Create Unit - 1 unit per call > 10000 assets aligned
   d. Update Unit API - 10 Units with total 20k Assets across units
   e. Read Asset API - 50k Assets per call Read Unit - 30 Units with total 20k Assets across units
3. General Enhancements - based on the customer (internal & external) feedback, enhanced multiple SMP features which will help to improve the customer experience. Some of these enhancements are related to the changes of User Interface to simplify and streamline the customer journey. These enhancements are for Global Versioning, RDP MW dispatch, BM Registration process, ABSVD MPAN Report and MPAN DNO report.
4. Data Historian - this will help the internal users to link the unit with the Data historian data points which helps in performance monitoring.
5. DSR capability - renaming the DSR capability as Demand Side Flexibility and also extending the Demand Side Flexibility to Domestic and industrial/commercial categories to properly classify the asset during registration.

10th December - Release 4.6

1. Optimise external APIs - additional validations on the Create MPAN PAIR & MPAN Consent API and improvements to:
   a. Read MPAN and MPAN Consent,
   b. Update MPAN And MPAN Consent.
2. General Enhancements - improvements to the Global Versioning user journey.
