STC Panel Headline Report 29 October 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The meeting minutes from the Panel on 24 September 2025 were approved, subject to minor comments from the Panel being incorporated. These have been uploaded to our [website](#).

New Modifications

The following new Modification Proposals were presented to the Panel:

CM0104: Due Date for Monthly Payments to Transmission Operators (TOs)

This proposal seeks to make a minor change to due dates for monthly payments to TOs, ensuring there is always one Business Day between the payments received by National Energy System Operator (NESO) from CUSC Users for Transmission Network Use of System (TNUoS) and Connection Charges, and the payments made by NESO to Transmission Operators (TOs) for general system charges and site-specific charges.

The Panel unanimously agreed that CM0104 should follow the Self-Governance route and proceed to Code Administrator Consultation.

CM0104 documentation can be found [here](#).

PM0150: Due Date for Monthly Payments to Transmission Owners (TOs)

This is a consequential STCP Modification to CM0104.

The Panel unanimously agreed that PM0150 can be implemented in line with CM0104.

PM0150 documentation can be found [here](#).

CM0105: Standardisation of Power Flow Metering Polarity

This proposal seeks to provide a unified standard for Power Flow Metering Polarity when data is sent to NESO. The standards should be presented in a format that includes both a

Public

diagram and a detailed explanatory description. This is a subsequent modification to [GC0182](#), which is currently at the Workgroup stage.

The Panel unanimously agreed that CM0105 should follow the Standard Governance route and proceed to Workgroup. The Panel agreed the Terms of Reference for the Workgroup.

CM0105 documentation can be found [here](#).

PM0133: Network Services Feasibility Studies

This proposal seeks to create a defined process or mechanism for the provision of network services feasibility studies.

The Panel did not agree to implement the modification. The Proposer was asked to liaise with Panel members and return to Panel once their concerns have been resolved.

PM0133 documentation can be found [here](#).

PM0149: Reconciliation – Change to STCP 19-2

This proposal seeks to update STCP 19-2 (Construction Process & Scheme Closure) Section 7.2.1 to align with CUSC Section 2.14.3 (c) to allow a longer reconciliation period for TOs when required.

The Panel unanimously agreed that PM0149 can proceed to implementation.

PM0149 documentation can be found [here](#).

PM0151: Introducing Competitively Appointed Transmission Owners to TO Lists on all Definitions

This proposal seeks to add Competitively Appointed Transmission Owners to lists of TOs in all Procedures Definitions.

The Panel unanimously agreed that PM0151 can proceed to implementation. The Panel noted that due to the number of Legal Texts to be updated, the Implementation Date will be 20 Business Days after Panel decision.

PM0151 documentation can be found [here](#).

Public

In flight Modifications

CM093: Extending the principles of the User Commitment Methodology to Final Sums Methodology as a consequence of CUSC Modification CMP417

The Panel approved the new timeline as submitted within the Panel Papers.

The next Modification Tracker will be published on 07 November 2025.

Workgroup Reports

No Workgroup Reports were presented to the Panel.

Draft Final Modification Report

The following Draft Final Modification Report was presented to the Panel:

CM0103: STC Consequential Modification for CMP447 (Follow on Modification to CMP428)

This modification seeks to introduce consequential changes needed to reflect the new CUSC definitions of terms, if CMP447 is approved as expected towards the end of October 2025.

The Panel has determined unanimously that the Proposer's solution better facilitates the STC Applicable Objectives. The Appeals window will open on 07 November 2025 and will close on 28 November 2025. The implementation date will be 10 Business Days after the Authority Decision on CMP447.

CM0103 documentation can be found [here](#).

Key Activities ahead of next panel

Modification Proposal Deadline for November STC Panel: 11 November 2025

Papers Day: 18 November 2025
