CUSC Panel Headline Report

28 November 2025

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The meeting minutes from the Panel on 26 September, 21 October and 31 October 2025 were approved and these have been uploaded to our website.

New Modifications

The following new Modification Proposals were presented to the Panel:

CMP464: Section 14 corrections

This modification seeks to address minor errors and formatting issues in Section 14 of the CUSC.

The Panel agreed that further clarifications were needed on the proposed legal text. CMP464 will be discussed at the Panel meeting on 30 January 2026 where Panel will agree the Governance route and next steps.

CMP464 documentation can be found [here](#).

In flight Modifications

CMP460: Improving Transmission Connection Asset Charging

The Panel did not approve the Terms of Reference submitted within the Panel Papers. The Panel suggested further amendments to ToR (b) and (f) for the Workgroup to consider.

The next [Modification Tracker](#) will be published on 07 December 2025.

Workgroup Reports

No Workgroup Reports were presented to the Panel.

Draft Final Modification Reports

The following Draft Final Modification Report was presented to the Panel:

CMP423: Generation – weighted Reference Node

This modification seeks to amend the reference node to generation-weighted instead of Demand-weighted.

The Panel has recommended by majority that the Proposer's solution better facilitates the CUSC Applicable Objectives. The Final Modification Report will be sent to Ofgem on 09 December 2025.
