Public

Ofgem publish a table that provides the expected decision date, or date they intend to publish an impact assessment or consultation, for code modifications/proposals that are with them for decision. This is published [here](#).

Prioritisation Stack

The Panel agreed no changes were needed to the Prioritisation Stack.

The latest prioritisation stack can be found [here](#).

In flight Modifications

GC0182 'Standardisation of Power Flow Metering Polarity'

The Panel did not approve the new timeline as submitted within the Panel Papers and requested further explanation as to the delay. A timeline will be presented to the Panel in January 2026.

The next [Modification Tracker](#) will be published on 07 January 2026.

Workgroup Reports

The following Workgroup Report was presented to the Panel:

GC0139 'Enhanced Planning-Data Exchange to Facilitate Whole System Planning'

This modification seeks to increase the scope and detail of planning-data exchange between Network Operators and National Energy System Operator (NESO) to help facilitate the transition to a smart, flexible energy system.

The Panel agreed that the Terms of Reference have been met and agreed for GC0139 to proceed to Code Administrator Consultation. The Code Administrator Consultation will be published on 06 January 2026, and this will close on 06 February 2026.

GC0139 documentation can be found [here](#)

Draft Final Modification Reports

No Draft Final Modification Reports were presented to the Panel.

Other

A new Electrical Standard was presented to the Panel. The review period for this will open on 30 December 2025 and close on 28 January 2026
