4	Do you have any other comments?	<p>Given the significant industry resources which have been expended and the limited material benefits which seem to have been realised and feedback from industry to the revised structure and format it would seem sensible to undertake a review of the benefits case and a review of any lessons learnt prior to extending to other parts of the Grid Code.</p> <p>There are a few comments included within the proposed Planning Code.</p>
5	Do you agree with the Workgroup's assessment that the modification does not impact the Electricity Balancing Regulation (EBR) Article 18 terms and conditions held within the Grid Code?	<p><input checked="" type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p> <p>As this modification is aimed at simplifying OC2 and not making any changes to the obligations/rights of Grid Code Users then it should not impact on the Article 18 terms.</p>
