7.	Stakeholder Representation	Chair	
8.	Any Other Business	All	10:40 - 10:45

# **2. NTC Commercial Compensation methodology consultation**

Joe Peffers (NESO)

# NTC Commercial Compensation Methodology – formal consultation published

NESO has published a consultation on the Commercial Compensation Methodology document relating to Net Transfer Capacity (NTC) limits NESO sets for interconnector flows.

We invite all interested parties to review and provide feedback on the proposed changes.

All consultation documentation is located on the [‘What is an NTC Page’](#) on the NESO website:

- Consultation overview document
- Draft Compensation Methodology (‘Clean’ and tracked pdf versions for proposed updates)
- Response proforma (in relation to the tracked version).

Responses should be submitted using the Response Proforma available on the [neso.energy page](#) (see right) and emailed to [box.EFTConsultations@neso.energy](mailto:box.EFTConsultations@neso.energy) by **5pm GMT on 17 April 2026**.

Please direct any questions to [box.EFTConsultations@neso.energy](mailto:box.EFTConsultations@neso.energy)

The screenshot shows the NESO website page for 'What is an NTC?'. The page includes a navigation menu with links for 'What we do', 'Energy 101', 'Industry Information', 'News and events', 'Publications', 'Careers', and 'About'. A search bar and 'Data Portal' link are also visible. The main content area features a title 'What is an NTC?' and a sub-section 'What is an NTC?' with an image of a wind turbine. Below this, there is a table of documents:

Current Compensation Methodology	Previous Commercial compensation Methodology Consultation	Current Commercial Compensation Methodology Consultation

The table below the image lists documents with columns for 'Name' and 'Published':

Name	Published
NTC Commercial Compensation Methodology Consultation Response Proforma 2026	6 Mar 2026
NTC Commercial Compensation Methodology Consultation Overview 2026 - Open until 17 April 2026	6 Mar 2026
NESO Commercial Compensation Methodology Draft for Consultation - Open until 17 April 2026_TRACKED	6 Mar 2026
NESO Commercial Compensation Methodology Draft for Consultation - Open until 17 April 2026_CLEAN	6 Mar 2026

Other useful information

# FTI Innovation project – informal feedback

The report from FTI was published earlier in the year (See [February's JESG slide pack](#) for headline findings) which explored the feasibility of market-based procurement options for Net Transfer Capacity limits.

Industry stakeholders are invited to review the report and share feedback informally to help NESO with next steps.

Email feedback:

- **Views can be sent to [box.eft@neso.energy](mailto:box.eft@neso.energy) before 28 March 2026 (note: separate to the formal Compensation Methodology consultation).**
- If any feedback is confidential (not to be shared outside NESO), please mark it as such. Otherwise, feedback will be taken to be non-confidential and could be attributed to your organization if shared.

Bilateral conversations (if requested):

- **Please email the .box above before 13 March 2026 to request a session**, and please advise on the specific topics for discussion.
- We will aim to have any requested calls arranged for before the end of March.

# 3. JESG Survey

Vanessa Simpson (NESO)

# JESG Survey Reminder

- NESO has launched a JESG participation Survey to ensure JESG continues to deliver value by maintaining NESO's customer focus.
- We would welcome responses from any stakeholders who have ever been to JESG whether that be for one meeting or as a regular attendee.
- We have extended the closing date of the survey from the 3<sup>rd</sup> of March to the **17<sup>th</sup> of March** to allow more time for Stakeholders to respond.
- The Survey can be found [here](#).

## JESG Participation Survey

# 4. IEM Update

Matthew Ramsden (DESNZ)

# 5. Review of Actions log

Andrew Hemus  
JESG Technical Secretary

# JESG Standing items

ID	Topic	Lead Party
S1	Continue to review the membership of the JESG and engage additional industry parties where appropriate.	JESG Chair
S2	Prepare a commentary / comparison document between the Network Code and the existing GB arrangements at appropriate stages in the Code development for each Network Code.	NGET / Ofgem / DESNZ
