Proposers Presentation

Alex Curtis – NESO

Consider the impacts on the security and safety of the system

- NESO's Control room actions to balance the system, are run independently of the financial settlement process to pay for them.
- The control room will always look to minimise the costs of any balancing actions they need to take.
- NESO Finance functions carefully monitor and forecast working capital requirements and take action to ensure that sufficient funds exist to meet the commitments made when balancing actions are taken.
- It is essential that NESO has sufficient funds at all times to enable it to meet commitments to those actions and parties that the BSUoS charge is designed to cover.
