Workshop date

21 05 26

Facilitators

David Preston - Product Manager

Gopa Indukumar - Business Analyst

Agenda

1	Introduction	2 min
2	Update on Releases	3 min
3	Global Versioning Changes - Feedback	5 min
4	Intuitive SMP guidance on each field - Feedback	5 min
5	AOB	2 min

Rules

- This is your session to participate. Dig in!
- Use the chat function to ask questions.
- Use the mute button when not speaking.
- Avoid interrupting when others are speaking.

63

Your Participation Role

1. **Throughout the session**
   Speak up, think big, raise concerns, be patient, don't use acronyms or inside language.
2. **During activities**
   Ask clarifying questions before we begin, good energy in - good results out.
3. **Remember**
   This session is part of the (good) work. We've never done this together before. Seek to understand before being understood.

Mural Tips

NAVIGATION

Moving the board

Hold the space bar down then click and drag to move the position of the entire MURAL on your screen

Zooming in & out

Scroll the wheel on your mouse or pinch on your trackpad to zoom in/out. When changing devices you may need to check **Zoom Settings** in the bottom right.

The minimap

Track your view of the MURAL and zoom percentage on the minimap on the bottom right corner of your screen.

ORGANIZING

Select Objects

Click an object to select it; hold shift while clicking objects to select more than one at once

Move Objects

After selecting the objects you wish to move, simply drag them to the desired location on the MURAL

CONTRIBUTING

Sticky Notes

Add sticky notes by right-clicking, then selecting **Add Sticky Note** or by double clicking on an empty space or the background.

Update on Releases

Latest status

3min

27th May - Release 5.1

1. Internal APIs - Introduced three new end points for Interconnector Cable, Interconnector User and Unit Suspension.
2. General Enhancements - UI/UX enhancements for page layouts for the External Portal and Internal Screens

24th June - Release 5.2

1. RTDX - Technical Go Live of Real Time Instructible DX for Response Services where capability parameters for response services will be captured on SMP as part of unit service prequalification for Dynamic Response Services.. The instructed service is an additional market introduced to the dynamic response services. When a unit fails to win a contract via the daily auction or has additional capacity, they can choose to declare their unit available for the ENCC to instruct in (or close to) real time.
2. General Enhancements - Nodes and GSP on a map for SMP internal users to locate and validate the details, UI/UX enhancements for Global Versioning screens, Company Overview page, User management pages

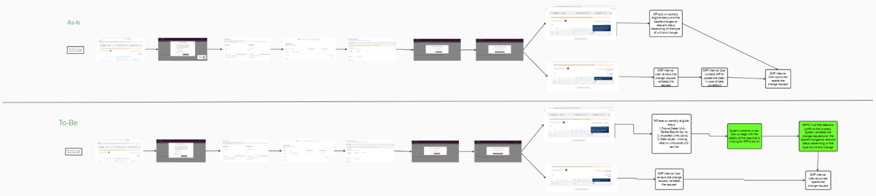
Global Versioning Changes - Feedback

⏱ 5 min



As-Is
MP acts on partially eligible status and the basket changes to relevant status depending on the type of unit and change
SMP Internal User reviews the change request, validates the request
SMP Internal User contacts MP to update the data (in case of data correction)
SMP Internal User approves/ rejects the change request
To-Be
MP acts on partially eligible status
1. Future Dated Unit - Delete Basket (As- Is)
2. Impacted Units (As-Is)
3. Data issues - missing data on units,asset,unit service
System presents a new pop up page with the details of the data that is missing for MP to act on
MP fill in all the data and confirms the process. System validates the change request and the basket changes to relevant status depending on the type of unit and change
SMP Internal User reviews the change request, validates the request
SMP Internal User approves/ rejects the change request

Review Questions and seek clarification

Questions

Is the SLA for Global Versioning still looking to be 10 days?
