Workshop date

18 **06** **26**

Facilitators

David Preston - Product Manager

Harish Srigiri - Product Owner

Jillian Wells - Systems Change Manager

Gopa Indukumar - Business Analyst

Agenda

1	Introduction	2 min
2	Update on Releases	5 min
3	Trading Agent and Control Point change request	5 min
4	AOB	2 min

Rules

- This is your session to participate. Dig in!
- Use the chat function to ask questions.
- Use the mute button when not speaking.
- Avoid interrupting when others are speaking.

Your Participation Role

1. **Throughout the session**
   Speak up, think big, raise concerns, be patient, don't use acronyms or inside language.
2. **During activities**
   Ask clarifying questions before we begin, good energy in - good results out.
3. **Remember**
   This session is part of the (good) work. We've never done this together before. Seek to understand before being understood.

Mural Tips

NAVIGATION

Moving the board

Hold the space bar down then click and drag to move the position of the entire MURAL on your screen

Zooming in & out

Scroll the wheel on your mouse or pinch on your trackpad to zoom in/out. When changing devices you may need to check **Zoom Settings** in the bottom right.

The minimap

Track your view of the MURAL and zoom percentage on the minimap on the bottom right corner of your screen.

ORGANIZING

Select Objects

Click an object to select it; hold shift while clicking objects to select more than one at once

Move Objects

After selecting the objects you wish to move, simply drag them to the desired location on the MURAL

CONTRIBUTING

Sticky Notes

Add sticky notes by right-clicking, then selecting **Add Sticky Note** or by double clicking on an empty space or the background.

Update on Releases

5 min

24th June- Release 5.2

1. RTDX -Technical Go Live of Real Time Instructible DX for response services where capability parameters will be captured as part of service prequalification for Dynamic Response Services. The instructed service is an additional market introduced to dynamic response services, where in when a unit fails to win a contract via the daily auction or has additional capacity, they can chose to declare the unit available for ENCC to instruct in (close to) real time.
2. SFFR Reform release - Changes to allocated volume level to minimum of 0.1 MW and suspension of the SFFR service
3. General Enhancements - Nodes and GSP on a map for SMP internal users to locate and validate the details, UI/UX enhancements on on SMP Portal

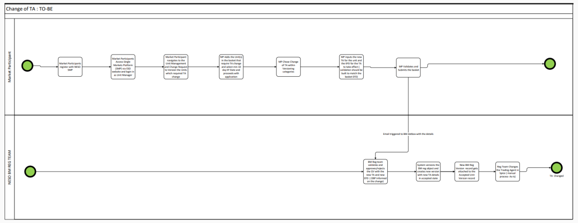
Trading Agent and Control Point Change Request

Latest insight

5 min

As part of future enhancement the existing manual process of changing the Trading Agent and Control Point for an Accepted unit will be enabled through the SMP Portal within the change request where Market Participants would be able to make the change request and will be sent to the BM registration team for validation and approval.



Change of TA : TO-BE
Market Participant
Market Participants register with NESO SMP
Market Participants Access Single Markets Platform (SMP) via ESO website and login in as Unit Manager
Market Participant navigates to the Unit Management and Change Request to Version the Units which required TA change
MP Adds the Unit(s) in the basket that require TA change and select min 10 day EF Date and proceeds with application
MP Chose Change of TA within Versioning categories
MP inputs the new TA for the unit and the EFD for the TA to take effect (validation should be built to match the basket EFD)
MP Validates and Submits the basket
Email triggered to BM dotbox with the details
NESO BM REG TEAM
BM Reg team validates and approves/rejects the GV with the new TA and new EFD (OBP Informed on the change)
System versions the BM reg object and creates new version with new TA details in accepted state
New BM Reg Version record gets attached to the Accepted Unit Version record
Reg Team Changes the Trading Agent in Spice (manual process- As-Is)
TA Changed
