

Grid Code Review Panel Headline Report

24 September 2026

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The meeting minutes from the Panel on 27 August 2026 were approved, subject to minor comments from the Panel being incorporated.

New Modifications

The following new Modification Proposal was presented to the Panel.

GC0190 'Material Compliance Updates'

This modification seeks to correct a number of inconsistencies and mistakes within several sections of the Grid Code that relate to the Compliance function. All changes are clarifications needed which are Material. It seeks to update the relevant sections for clarity and to keep pace with technological change.

The Panel by majority agreed that GC0190 should follow the Standard Governance route and proceed to a Workgroup. The Panel agreed the Terms of Reference for the Workgroup

GC0190 documentation can be found [here](#).

New / Pending Authority Decisions

[Decisions since the last Panel](#)

There have been no new Authority decisions on Grid Code Modifications.

Awaiting Decisions

Modification	Final Modification Report Received	Decision Date
GC0103: <u>The introduction of harmonised Applicable Electrical Standards in GB to ensure compliance with the EU Connection Codes.</u>	20 August 2026	TBC – Paused whilst waiting for the AES decision (Panels request).

Ofgem publish a table that provides the expected decision date, or date they intend to publish an impact assessment or consultation, for code modifications/proposals that are with them for decision. This is published [here](#).

Prioritisation Stack

The Panel completed a review of the modification prioritisation framework, assessing active modifications against SDS alignment, importance and complexity.

Modification	Panel Comments	Position in Prioritisation Stack
<u>GC0190: Material Compliance Updates</u>	Panel agreed GC0190 should be positioned one from the bottom of the prioritisation stack, reflecting its low importance and low alignment with SDS	Low, ranked one above GC0140.

In flight Modifications

GC0184 'Revising Minimum Reactive Capability Requirements within European Connection Conditions, ECC6.3'

The Panel approved the new timeline as submitted within the Panel Papers.

Workgroup Reports

The following Workgroup Report was presented to the Panel:

GC0182: Standardisation of Power Flow Metering Polarity

The Panel agreed that the Terms of Reference have been met and agreed for GC0182 to proceed to Code Administrator Consultation. The Code Administrator Consultation will be published on 06 October 2026 and will close on 06 November 2026.

GC0182 documentation can be found [here](#).

Draft Final Modification Reports

GC0168: Submission of Electromagnetic Transient (EMT) Models

The Panel has recommended by majority that the WAGCMI better facilitates the Grid Code applicable objectives. The Final Modification Report will be sent to Ofgem on 08 October 2026.

GC0168 documentation can be found [here](#).

Key Activities ahead of next panel

Grid Code Development Forum: **07 October 2026**

Modification Proposal Deadline for October Panel: **14 October 2026**

Papers Day: **21 October 2026**
