STC Panel Headline Report 28 October 2026

The Headline Report is produced after every Panel and aims to provide an overview of the key decisions made. Minutes for this meeting will be published separately.

Approval of Panel Minutes

The meeting minutes from the Panel on 26 August 2026 and 30 September 2026 were approved, and these have been uploaded to our website on each respective Panel [meeting](#).

New Modifications

The following new Modification Proposal was presented to the Panel.

PM0157 Standardisation of Power Flow Metering Polarity

This modification aims to provide a unified standard for Power Flow Metering Polarity when data is sent to NESO. The standard should be presented in a format that includes both a diagram and a detailed explanatory description. This is a subsequent modification to GC0182.

The Panel unanimously agreed to the implementation and next steps, noting that implementation will be in line with GC0182 implementation.

PM0157 documentation can be found [here](#).

New / Pending Authority Decisions

[Decisions since the last Panel](#)

There have been no new Authority decisions on STC Modifications.

Awaiting Decisions

Modification	FMR submitted	Expected Decision Date
<u>CM078: Connections Triggering Distribution Impact Assessment</u>	07 June 2022	TBC – No further update was available.
<u>CM093: Extending the principles of the User Commitment Methodology to Final Sums Methodology as a consequence of CUSC Modification – CMP417</u>	16 July 2026	TBC – Timing is linked to the Authority’s consideration of CUSC modification CMP417, for which the Final Modification Report has been received. Further update will be given at November Panel.
<u>CM097: Electromagnetic Transient (EMT) and Root Mean Square (RMS) Model Submission for Transmission Owners (TOs)</u>	16 July 2026	TBC – The Authority is considering CM097 alongside the interlinked modifications GC0168, CMP456 and PM0147, issuing the decision letters simultaneously. The indicative timing was spring to summer 2027, but no firm decision date was confirmed.
<u>PM0147: RMS and EMT Model Sharing Process (STCP 12-2 Issue 01) National Energy System Operator</u>	16 July 2026	TBC – PM0147 remained awaiting an Authority decision. The Authority is considering PM0147 alongside CM097, GC0168 and CMP456, with decision letters issued simultaneously because the modifications are interlinked. The indicative timing was spring to summer 2027, but no firm decision date was confirmed.
<u>PM0158: Changes to TNUoS timings Protocols National Energy System Operator</u>	N/A	TBC – PM0158 remained awaiting an Authority decision. The Authority confirmed that the decision letter was being progressed within Ofgem, subject to progress. No firm date was confirmed.

Ofgem publish a table that provides the expected decision date, or date they intend to publish an impact assessment or consultation, for code modifications/proposals that are with them for decision. This is published [here](#).

In flight Modifications

No Inflight Modifications were presented to the Panel.

Workgroup Reports

No Workgroup Reports were presented to the Panel.

Draft Final Modification Reports

No Draft Final Modification Reports were presented to the Panel.

Any Other Business

Horizon Scanning

The Chair informed Panel that the Code Administrators Code of Practice (CACoP) had agreed that the Horizon Scan should no longer be hosted on the CACoP website and that responsibility for maintaining it would be removed from CACoP. Notwithstanding this change, Panel noted that the Horizon Scan would continue to be reviewed as a standing item at STC Panel meetings.

Key Activities ahead of next panel

Next STC Panel meeting: **25 November 2026**

Modification Proposal Deadline for the November Panel: **10 November 2026**

Papers Day: **17 November 2026**
