19 March 2026

Dear requester

Request for Information

Thank you for your request for information which was received by NESO on 18 March 2026. Your request has been considered under the Environmental Information Regulations 2004 (EIR) as the requested information meets the definition of environmental information at Regulation 2(1) of the EIR.

Request

You asked:

Page 47 (section 13) of the [2025 FUTURE ENERGY SCENARIOS](#) contains a graph showing the various sources of electricity in TWh in the Holistic Pathway. I have looked at the data workbook and cannot find the actual numbers behind the figures shown in the graph. I would be grateful if you could let me have the numbers

Our response

We can confirm that we hold recorded information in scope of your request.

The Future Energy Scenarios 2025 is published on the NESO website: [Future Energy Scenarios \(FES\)](#) | [National Energy System Operator](#).

The [FES 2025 Data Workbook](#) provides all the graphs, charts and supporting data published for FES 2025. If using Microsoft Edge, you may need to download the file rather than view online.

Tab F.13 of the [FES 2025 Data Workbook](#) contains graphs and supporting data for the forecast electricity output by technology (TWh) for all FES pathways. The information for the Holistic Transition pathway, the graph for which is published as Figure 13 on page 47 of the FES 2025 Report, is presented at the top of the tab.

The relevant tab can be accessed:

- via the Contents page of the Data Workbook – the link is provided in the ‘Main Report Charts’ section, in Chapter 3 ‘Powering the System: Electricity Supply’ (Figure 13 – tab F.13 – F.13: Electricity Output by technology)

OR

- by scrolling through the worksheet tabs at the bottom of the Data Workbook

This concludes our response to your request.

Next steps

If you are dissatisfied with our handling of your request, you can ask us to review our response. If you want us to carry out a review, please let us know within 40 working days and quote the reference number at the top of this letter. You can find our procedure here: [Freedom of Information and Environmental Information Regulations | National Energy System Operator](#). The ICO’s website also provides guidance on the internal review process: [What to do if you are dissatisfied with the response | ICO](#).

If you are still dissatisfied after our internal review, you can complain to the Information Commissioner’s Office (ICO). You should make complaints to the ICO within six weeks of receiving the outcome of an internal review. The easiest way to lodge a complaint is through their website: www.ico.org.uk/foicomplaints. Alternatively, they can be contacted at: Wycliffe House, Water Lane, Wilmslow, SK9 5AF.

Thank you for your interest in the work of the National Energy System Operator (NESO).

Regards,

The Information Rights Team, National Energy System Operator (NESO)
