11 June 2026

Dear requester

Request for Information

Thank you for your request for information which was received by NESO on 2 June 2026. Your request has been considered under the EIR because information relating to connections falls within the definition of 'environmental information' at Regulation 2(1)(c) of the EIR.

Request

You asked us:

I accessed today the Transmission Entry Capacity register on your website [here](#). I note that the site does not contain historic connection registers – it appears that, as soon as the connection register CSV file is updated, access to any historic versions is no longer available.

Is there any way in which I would be able to access this historic data? It would be very useful to obtain a copy of the first register that contained the additional 'Gate' column (which I understand was from 21 November 2025). Please do let me know.

Our response

We can confirm that NESO holds information in scope of your request and enclose a copy of the TEC Register published on 21 November 2025.

This concludes our response to your request.

Next steps

If you are dissatisfied with our handling of your request, you can ask us to review our response. If you want us to carry out a review, please let us know within 40 working days and quote the reference number at the top of this letter. You can find our procedure here: [Freedom of Information and Environmental Information Regulations | National Energy System Operator](#). The ICO's website also provides guidance on the internal review process: [What to do if you are dissatisfied with the response | ICO](#).

If you are still dissatisfied after our internal review, you can complain to the Information Commissioner's Office (ICO). You should make complaints to the ICO within six weeks of receiving the outcome of an internal review. The easiest way to lodge a complaint is through their website: www.ico.org.uk/foicomplaints. Alternatively, they can be contacted at: Wycliffe House, Water Lane, Wilmslow, SK9 5AF.

Thank you for your interest in the work of the National Energy System Operator (NESO).

Regards,

The Information Rights Team, National Energy System Operator (NESO)
