Code Administrator Consultation Response Proforma

GSR036: System Access Reform: Review of the voltage limits

Industry parties are invited to respond to this consultation expressing their views and supplying the rationale for those views, particularly in respect of any specific questions detailed below.

Please send your responses to box.sqss@neso.energy by **5pm** on **03 July 2026**. Please note that any responses received after the deadline or sent to a different email address may not receive due consideration.

If you have any queries on the content of this consultation, please contact box.sqss@neso.energy

Respondent details	Please enter your details	
Respondent name:	Andrew Urquhart	
Company name:	SSE Generation	
Email address:	andrew.urquhart@sse.com	
Phone number:	01738 456 000	
Which best describes your organisation?	☐ Consumer body ☐ Demand ☐ Distribution Network Operator ☒ Generator ☐ Industry body ☐ Interconnector	☐ Storage ☐ Supplier ☐ System Operator ☐ Transmission Owner ☐ Virtual Lead Party ☐ Other

Public

I wish my response to be:

(Please mark the relevant box)	☒ Non-Confidential (<i>this <u>will be shared</u> with industry and the Panel for further consideration</i>)
	☐ Confidential (<i>this will be disclosed to the Authority in full but, unless specified, <u>will not be shared</u> with the Panel or the industry for further consideration</i>)

For reference the Applicable SQSS Objectives are:

- a) *facilitate the planning, development and maintenance of an efficient, coordinated and economical system of electricity transmission, and the operation of that system in an efficient, economic and coordinated manner;*
- b) *ensure an appropriate level of security and quality of supply and safe operation of the National Electricity Transmission System;*
- c) *facilitate effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity; and*
- d) *facilitate Licensees to comply with any relevant obligations under Assimilated law.*

Public

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions				
1	Please provide your assessment for the proposed solution against the Applicable Objectives against the current baseline.	Mark the Objectives which you believe the proposed solution better facilitates than the current baseline:		
		<table border="1"> <tr> <td>Original</td> <td> ☒ (a) ☐ (b) ☒ (c) ☐ (d) </td> </tr> <tr> <td></td> <td>☐ None</td> </tr> </table>	Original	☒ (a) ☐ (b) ☒ (c) ☐ (d)
Original	☒ (a) ☐ (b) ☒ (c) ☐ (d)			
	☐ None			
b) Neutral as this modification looks to maintain current levels of quality and security, albeit for a higher voltage tolerance. d) Neutral as it does not change the level of compliance required, only complying with a different standard.				
2	Do you support the proposed implementation approach?	☐ Yes ☒ No		
		We do support the modification but there is insufficient detail in the implementation approach to decide whether the approach is appropriate. The date is not specific and there is no plan. It calls for a robust and coordinated approach but doesn't suggest how that may be achieved.		
3	Do you have any other comments?	No
