Which best describes your organisation?	☐ Consumer body ☐ Demand ☐ Distribution Network Operator ☐ Generator ☐ Industry body ☐ Interconnector	☐ Storage ☐ Supplier ☐ System Operator ☒ Transmission Owner ☐ Virtual Lead Party ☐ Other

Public

I wish my response to be:

(Please mark the relevant box)	☒ Non-Confidential (<i>this <u>will be shared</u> with industry and the Panel for further consideration</i>)
	☐ Confidential (<i>this will be disclosed to the Authority in full but, unless specified, <u>will not be shared</u> with the Panel or the industry for further consideration</i>)

For reference the Applicable SQSS Objectives are:

- a) *facilitate the planning, development and maintenance of an efficient, coordinated and economical system of electricity transmission, and the operation of that system in an efficient, economic and coordinated manner;*
- b) *ensure an appropriate level of security and quality of supply and safe operation of the National Electricity Transmission System;*
- c) *facilitate effective competition in the generation and supply of electricity, and (so far as consistent therewith) facilitating such competition in the distribution of electricity; and*
- d) *facilitate Licensees to comply with any relevant obligations under Assimilated law.*

Public

Please express your views in the right-hand side of the table below, including your rationale.

Standard Code Administrator Consultation questions						
1	Please provide your assessment for the proposed solution against the Applicable Objectives against the current baseline.	Mark the Objectives which you believe the proposed solution better facilitates than the current baseline: <table border="1"> <tr> <td>Original</td> <td> ☒ (a) ☐ (b) ☐ (c) ☐ (d) </td> </tr> <tr> <td></td> <td>☐ None</td> </tr> </table> SSEN Transmission supports the proposed solution and agrees that it better facilitates Objective (a) relative to the current baseline. Improving the formatting of the SQSS should make the document easier to navigate and use, helping stakeholders identify and interpret requirements more efficiently. We agree that the proposal is administrative housekeeping in nature and does not materially affect Objectives (b), (c) or (d).	Original	☒ (a) ☐ (b) ☐ (c) ☐ (d)		☐ None
Original	☒ (a) ☐ (b) ☐ (c) ☐ (d)					
	☐ None					
2	Do you support the proposed implementation approach?	☒ Yes ☐ No Yes. SSEN Transmission supports the proposed implementation approach.				
3	Do you have any other comments?	SSEN Transmission has reviewed the proposed changes and supports the proposal. We agree that the solution improves the readability, consistency and usability of the SQSS. We have				

Public

		not identified any issues that would affect our support for the modification. However, we have identified some minor formatting issues to be addressed, these are summarised below: • Contents Page: 10 & 11, wording overly indented (page 2) • Too many spaces after word 'unit', in note 1 (page 19) • 10.1: 'pre-fault planning voltage limits' and 'steady state' are defined terms and should be italicised (page 47) • Terms and Definitions: (Page 48 onwards) - 'Balancing Mechanism' and Demand Point of Connection: definition text should finish with a period. <i>There are some further occasions of missing periods throughout the document.</i> - 'Medium Power Station: it should be 'a user system' rather than 'an user system' • Appendix H (page 83) - H.19) Additional spaces between 'the ISOP' • Appendix J, Annex 1 (page 99) - J.A.1.5 a) 'p' missing from 'election process'.
