## What is the issue?

The current version of STC Schedule 2 is unusable as a source of information on Code Procedures due to the way in which it is formatted.

## Why change?

Amending the format of the STC Schedule 2 will improve readability and provide a far more useful tool to understand what Code Procedures have existed and which are currently live documents.

## What is the Proposer's solution?

Reformat STC Schedule 2 so that it is ordered by Code Procedure number first and then by issue. Update the list to ensure all previous issues of Code Procedures are included. Add a status column to include whether the issue is live or has been superseded.

## Draft legal text

See **Annex 01**.

## What is the impact of this change?

This change will provide greater clarity to all who utilise the STC and Code Procedures by providing a clear record of all STCPs and the current live issues.

| Proposer's assessment against STC Objectives                                                                                                                   |                                                 |

| Improved quality of service                                                                                     | <b>Neutral</b>           |

## **When will this change take place?**

### **Implementation date:**

01 September 2026.

### **Date decision required by**

29 July 2026.

### **Implementation approach**

This modification does not contain any process or system changes.

### **Proposer's justification for governance route**

Governance route: Fast-track Self- Governance modification

Governance route: This proposal simply reorders Schedule 2 for readability and adds an additional column to make clear which issue of each Code Procedure is

Public

live. Schedule 2 in general does not fall within the normal governance processes. There is no material change proposed as part of this proposal.

## Interactions

☐ Grid Code      ☐ BSC      ☐ CUSC      ☐ SQSS  
☐ European      ☐ Other      ☐ Other  
 Network Codes      modifications

This modification does not interact with any other codes.
